#### Vicinity News.

Dr. Still has been repairing and improving the buildings on his farm.

Since the heavy storm of last Wednesday, the weather has been quite cool.

Charles Hoffman has taken charge of Dr. Still's livery barn, where horses are let very cheap.

The M. E. aid society will meet this week, Wednesday afternoon, at the parsonage. A general invitation is extended.

Last week the Grand Stand on the Fair Ground was raised. It is a large building and will accommodate a vast crowd. Make it good and strong gentlemen.

One day last week a drove of cows passed through our village, en route to New York. Such an occurrence a few years ago, when half a dozen droves a day could be seen on the road, would not have called forth an item. But, ch, how things have changed.

KICKED.—We learn that the son of Mr. Myron H. Wagner, about four years of age, received a kick from a horse one day last week, breaking the little ones jaw bone and marring one of his shoulders severely. Dr. Still reduced the fracture and dressed the wounds.

A short time ago Doctor Still performed a most difficult operation on Asa Tillson's grandchild, 17 years old, by removing a nest of eight encysted tumors from the side of her neck around the carotid artery, lifting nerves which if cut would have killed or paralyzed the patient. She has fully recovered.

Drs. Fox & Matteson and Chas. T. Fox were last Sunday invited to Butternuts, to witness a surgical operation of an putrid tumor performed by Dr. Thorp on the thigh of a young man by the name of Jensen. The young man was put under the influence of chloroform and did not undergo any pain during the operation.

Last Sunday afternoon John A. Ward visited one of his barns and ascended a ladder to the hay loft to examine his hay when a round on which he was standing broke, causing him to fall to the floor, striking on his shoulder. No bones were broken, but the shoulder was somewhat injured. John is about the street with an empty sleeve.

OPPOSED BY MISTAKE.—The postoffice department has introduced the use of a seal for letters returned to the office as opened by mistake. This seal is in form very similar to two postage stamps, and is intended to be fastened over the upper edge of the envelope in the centre like a clasp. Hereafter all letters opened by mistake will be sealed in the manner indicated.

THE STORM.—On Wednesday last one of the most severe storms of the season passed over the central part of this State. Not only were the crops and property damaged, but many very many hop yards injured by the blowing down of hop poles. In many places buildings were destroyed, and great damage was done especially so was this case in the Eastern States, were also, many persons are reported killed.

HOPS.—From all accounts from the hop growing districts of the State there will be a short crop of hops this year. This fact should stimulate those who have good yards to thoroughly cultivate them, and to secure the crop in first class order. Hops have advanced in price. The Journal of July 17th says: Good hops to day are worth 12 to 15 cents in the country, and are likely to go higher. Choice hops of the growth of '77 that would not in April sell for over 5 cents, are now worth about 12.

ACCIDENT.—Mrs. John H. Davis, daughter of John L. Winton, of this village, recently came near having a very serious accident. The men folks being busy in the hay field she went to the cheese factory, (dunk) in Pittsfield, driving a colt. She disposed of the milk, and was having the can filled with whey when the colt commenced to back, and in some way tipped the wagon off into the water landing bottom side up with Mrs. Davis under the wagon in the water, and but for the can, which was strapped to the wagon, keeping off of her, she doubtless would have been severely if not fatally injured. She was assisted from the water, wagon righted up and she drove home, only finding herself but very slightly hurt.

#### Personal Mention.

Please hand in your personals. Frank Bowne returned home from Elmira, last week.

Mrs. Mary Tucker, of Binghamton, is visiting friends in town.

Rev. Geo. B. Vosburgh, obtained a divorce from his wife in Fargo, Dakota Territory, July 16th.

Rebecca L. Bowne, who has been spending several months in Burlington, N. J., returned home last week.

Mark Gill is very sick. But hopes of his recovery are entertained by his physician. Disease, pneumonia.

We regretted to learn last Saturday that Mrs. Cobb was quite sick. But are now pleased to report that she is much better.

Miss Jennie and Miss Lena Cooke, of Cortland, daughters of the late Stewart Cooke, are spending a few days at their grand-mother's, Mrs. J. R. Angell.

#### Oneoto County.

There are several cases of scarlet fever reported in Oneonta.

Samuel Hannis, of Worcester, fell a short time ago, breaking his arm between the elbow and shoulder. Mr. H. is 90 years of age.

Tin peddlers of Oneonta, have gathered

ten tons of old rubbers in the past three months. Such goods are used in the manufacture of cheap belting.

The Conservatory of Music, on which so many fond hopes for the future of Cherry Valley have been built, has to be recorded as a failure, on account of the lack of local patronage.

The Otsego Medical Society met its annual session at Carr's Hotel, in Cooperstown, on Tuesday, last week. The following officers were elected: Dr. deags Case, President. Dr. E. E. Houghton, Vice-President, Dr. E. W. Spafford, Sec'y, Dr. L. H. Hills, Treas.

Ernest Hotheer was engaged in painting Walter Scott's new house in Oneonta one day last week, when he fell about forty feet, breaking a post on the third floor and another one on the second floor and going between those on the first floor, and landing in the cellar; he was but very slightly injured.

The wheelbarrow man, L. P. Federmeier, who in December last, started with Lyman Potter, of Albany, from San Francisco, each to trundle a wheelbarrow across the continent to New York City, via Albany, on a wager of \$1,500, the one who reached New York first, to have the money, passed up the Susquehanna Road from Binghamton to Albany last week, being 400 miles ahead of Potter. He carries a book in which he has the official stamp of nearly every postoffice he has passed. He expects to arrive in New York on the 24th inst.

On Friday morning, 11th inst. Mr. N. A. Beers and family were preparing for a drive into the country. The horse and light open buggy were standing in the alley in the rear of the Cottage Hotel at Oneonta. Mrs. Beers and the three children—one an infant only a few weeks old—were in the back seat, and Mr. Beers was just stepping into the front part of the wagon when the horse was frightened by a sheep which was tied near by and sprang quickly forward, throwing Mrs. Beers and the children violently to the ground. Mrs. B. sustained serious internal injuries, and being in delicate health it was feared the nervous shock would prove fatal. The babe was injured about the head, and its life for a time was despaired of. Thanks to the skillful and untiring attentions of Dr. Entler both are alive, and hopes are entertained of their recovery. The escape of the other children with slight bruises, was almost miraculous.—Press.

#### The Court House

At the same time many of our citizens say that this is the best the county will do if it is determined to put up a new building if it is a choice between such a building or none it may be best to stop all further discussion and dispute over the matter, and accept the offer in full and short sighted as we deem it.—Cooperstown Journal.

If this is the best the county can do, we would ask in the name of the Lord and all sensible men in the county to stand by the Supervisors proposition to build a Court House. It is very difficult for us men to come down to earth. If it would have required \$100,000 to build a Court House with a year, we would not have to pay \$100,000 now. We could pay \$100,000 in ten years, \$20,000 now, and will put up the building with a \$100,000 bond. Then the Journal would not have asked for a \$100,000 statement on a Court House. Why then should we talk of \$100,000 for a Court House? It is not a matter of dollars, but of the people's opinion. Those who have the privilege to offer with it of a better and shorter sightedness. It requires the abundant and various exercise of the judgment of Christ on earth to induce the belief that there is not some ulterior motive on the part of those who indulge in this kind of talk. Wages are not over 50 per cent of what they were fifteen years ago. Material is from 30 to 50 and perhaps 60 per cent less than what it was then. It may be well for those who live in places to contribute to an expensive Court House, but those of us who are contented to live in a four hundred dollar house feel that we can manage to wangle along with a Court House that does not cost more than \$20,000.—Cherry Valley Gazette.

SWALLOWING A SILVER HALF DOLLAR.—A young man named Blume, living in the family of General E. F. Jones, in Binghamton, was amusing the General's little lad by tossing up a fifty-cent silver piece and catching it in his mouth. He tossed it up, and held his open mouth up to catch it. He supposed it went into his mouth and down his throat. That evening he played with the orchestra for the College commencement at the Baptist church. He kept up about his work assisting the General in his business, all the while experiencing some bodily pain, and much mental anxiety. Physicians examined his throat while he believed it was lodged there, but were unable to find it. Several days after while eating his dinner, he became unable to swallow his victuals, and was seized with a very violent hic-cough. The hic-cough as he supposed, loosened the coin, when it dropped into his stomach. He immediately experienced relief. Last Wednesday after suffering considerable pain he died. Death having resulted from swallowing the half dollar.

BALLOU'S MONTHLY MAGAZINE FOR AUGUST.—This popular magazine promptly made its appearance on the day of publication, and is just as good and just as interesting as the most devoted lover of literature could desire. There are some remarkable things in this number, and among them we find a splendid illustrated article on artesian wells, a thrilling sea-story, an adventure that is well worth reading, some remarkably good poetry, several domestic tales, choice engravings on many subjects, and other things too numerous to mention.

AN ELECTRIC PHOTOGRAPH.—After Jimmy Stevens, the boy killed by lightning on Tuesday, was taken home, and while the corpse was being prepared by the undertaker for burial, a picture resembling a photograph of a butternut limb came out on his back very distinctly, and stayed there. It is certain that this print was not upon his back before he was taken home. Photographing in this manner is often performed by lightning. Jimmy's back was bare when he was killed, and the bush which was photographed upon his skin was just over his bare back.—Binghamton Republican.

#### Laurens.

Mrs. Alma Carr, aged 22 years, wife of W. H. Carr and daughter of Leonard Frink, after an illness of six days died July 16th. She leaves a little girl 2 years old and an infant child. The funeral was largely attended last Friday, and was the saddest ever witnessed in this village.—Leonard Frink, Sylvester Gile and Mrs. Willie Gile are on the sick list this week.—M. J. Ward and Miss Mattie Lee, daughter of Rev. H. W. Lee, were married last Thursday evening.—Mr. W. H. Cloher and wife of New Hartford, are visiting Mrs. Harvey Strong.—The Pool Spring is getting to be quite a place of resort. Last Sunday I went up there to see the cave and get a drink of water, and found eight teams there and 32 persons. It is a splendid place to spend a half day. A large oak stove has been put up in a building built for that purpose, and tables, swings, seats, &c.

The growth of the five-cent business is one of the curiosities of the day. At first five-cent counters were attached to great establishments as a temporary novelty, but the demands upon those counters became so great as soon as the people became familiar with them that many firms in the country adopted them as regular departments. And now the business has so rapidly developed that some wholesale houses deal exclusively in five-cent goods, one Boston firm doing an annual business in that line of half a million dollars.

A sudden rain storm swelled a Dakota mountain stream to a torrent, and David Morton, arriving at its bank with his wife in a wagon, found that he could not cross. Desiring to get rid of Mrs. Morton, he threw her into the stream and drove the horse in after her, letting both drown. A coroner's jury was about to decide that the woman had been accidentally killed when a detective arrived with the news that there were marks of a struggle beside the stream. This overwhelmed Morton, and he confessed the murder.

An amusing story is told of Dr. Lyman Beecher by a correspondent of the Hartford Times. When he was preaching at Littlefield Conn. he was passionately fond of fishing, and the previous day he had found him kneeling in a neighboring pond trolling for pocket while his coat pockets were filled with fish. Not having time to change his clothes he marched with his pole to the church, and entered the pulpit with his boots full of fish, and the pulpit in his pockets. Notwithstanding his condition he preached one of his most impressive discourses.

The persecution of Protestants by Romanists in Ireland is exciting attention. To us in a free country it seems almost incredible that at this moment in time and within half a day of the seat of British power in the valley the priests march up and down the streets with their people not to trade in Protestant shops. Scores of facts like these are mentioned.

A poor woman was called out of one of these shops got a severe shaking and was ordered never again to enter any of these shops. Other persons were called out of another shop, their bundles were examined to ascertain their contents, and all kinds of vengeance threatened if they ever again bought anything in that shop. Some persons were coming to another shop to sell eggs, they were poor folk traveled four or five miles and were anxious to sell their eggs when the high price was given. But they were met and not allowed to dispose of their property in a Protestant shop.

THE GOLFING—RILEY RACE Silver Lake on which the contest took place on Tuesday, July 15th is situated in the eastern part of Wayne county, N. Y. Owing to the roughness of the water a start was not effected until nearly half past 7 in the evening. Riley led at the start, putting 3 strokes a minute. Courtney's stroke was considerably slower, not over 24 a minute. At the mile Riley was half a length ahead. At the mile and a half Riley was one and a half lengths ahead. The last half of the race was pulled much quicker than the first half, but the speed never was above 33 or 44 a minute. Riley evidently put on a good deal of steam and more than once the nose of his shell showed a few feet in the van. But a single stroke or two at the most would again restore Courtney's lead which he apparently maintained with the greatest ease. Courtney came in a winner by a quarter of a boat's length in time officially announced as 27 minutes, 47 seconds. This considering the state of the water, was very good time.

GREENBACK MEETING will be held at Dr. Still's office Saturday evening July 26th. All interested in the Greenback movement are requested to attend.

Repairs for Mowing Machines furnished at Bunn's.

All kinds of Clothes Wringers repaired at Bunn's Hardware Store.

Nothing, Clouting, Any, by wishing will be sold at a reasonable price, call to call at Joseph Prices, Oneonta, before purchasing elsewhere.

#### INTERESTING TO ALL.

Good health is prized above everything else in the world. But how often is it the case that poor people wish they were rich, not thinking that good health is wealth. And then on the other hand how often you will hear rich people say, if I only had good health I would gladly give every dollar I have in the world. Now the only thing that will afford perfect happiness is D. E. V. G. Ask your store keeper for it. For sale by Druggists. No. 2.

"GAINED FOUR POUNDS." AUBURN, N. Y., Sept. 14, 1877. DR. M. M. FENNER, Fredonia, N. Y.

Dear Sir:—I had been suffering with Dyspepsia, Liver Complaint, Nervousness and General Debility. A dozen different remedies did no good. My whole body was spotted as an adder. Mr. David S. Crane, of Rochester, N. Y., who is carried away with your remedies advised me to take your Blood and Liver Remedy and Nerve Tonic. I have taken two-thirds of a bottle and wish you could see the effect. I have gained four pounds. I owe you and Mr. Crane both a debt of gratitude. Yours truly, EUGENE S. SAYLER.

Dr. Fenner's Blood and Liver Remedy and Nerve Tonic may well be called "The conquering hero" of the times. It is the medical triumph of the age. Whoever has "the blues" should take it, for it regulates and restores the disordered system that gives rise to them. It always cures Biliousness and Liver Complaint, Jaundice, Dyspepsia, Constipation, Headaches, Fever and Ague, Splen Enlargements, Scrofula, Erysipelas, Pimples, Blotches, and all Skin Eruptions and Blood Disorders, Swelled Limbs and Dropsy, Sleeplessness, Impaired Nerves and Nervous Debility. Restores flesh and strength when the system is run down or going into decline, cures Female Weakness and Chronic Rheumatism, and relieves Chronic Bronchitis, and all Lung and Throat difficulties. It does these things by striking at the root of disease and removing its causes. Dr. Fenner's Improved Cough Honey will relieve any cough in one hour.

Dr. Fenner's Golden Relief cures any pain, as Toothache, Neuralgia, colic or Headache in 5 to 30 minutes, and readily relieves Rheumatism, Kidney complaint, Dizziness, &c.

Dr. Fenner's St. Vitus Dauce Specific. One bottle always cures. For sale by J. P. Kenyon.

Hall's Vegetable Sialian Hair Renewer is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling out of the hair. It nourishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair-dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world.

#### NEW, NEAT, STYLISH,

#### CONVENIENT! DOOR PLATE!

AND CARD RECEIVER.

Manufactured by O. S. Carpenter, at Oneonta, N. Y.

The undersigned has received the appointment for introducing into this vicinity this celebrated article. It is ornamental and very convenient—the Card Receiver being a great improvement over the present system of slipping a card under the door. The name on the plate is, in plain silvered letters on black ground work, covered with glass, and easily read. It should be on every well appointed residence in this village, and the price is within the means of anyone. A sample can be seen at the Chronolo Office or in my possession. If you want a neat and tasty door plate buy this. E. E. CARPENTER.

N. B.—There have been about fifty sold already in Oneonta, and a large number in every village where they have been introduced. E. C. Price on your door, only \$1.00!
