

Onondaga County Farmers. The farmers of Onondaga county are agitating the question of taking a hand in politics. They are not anxious to engage as a third party but they propose to organize and work through the two great parties.

In this they pronounce against corrupt expenditures of money at polls; the sub-treasury scheme; government ownership of railroads, telegraph and telephone lines; the centralization of power; trusts and combinations to put up the prices of commodities; the irrigation of the arid lands of the west and the southwest at the expense of the government; any undue increase of salaries; and any policy whereby farmers of the country shall be deprived of their political rights.

They favor effective organization among farmers; the revision of the ballot reform law of this state; the making of liberal appropriations by the legislature to further agricultural interests; the establishment of agricultural departments in institutions of learning; and a sufficient volume of coin and paper currency issued on a sound basis to meet the legitimate demands of the country.

They regard with favor the passage of the direct succession tax law; the collateral inheritance act; the law relating to taxation of corporations; the taxation of foreign banking capital; the tax on organizations of corporations; and the revision of the tax laws by the appointment by the governor, by and with the consent of the senate, of a competent commission to recommend to the legislature of 1893 a law that shall provide for the taxation of both real estate and personal property on an equitable basis.

The movement indicates that the farmers are becoming imbued with a determination to do something to relieve that class. It may be crude at first but the farmers feel that they need assistance and having the power to get it, will do so.

In an article in the July Forum ex-Secretary Fairchild speaks as follows of the free coinage of silver: All Europe has stopped the free coinage of silver, which it would have not done had it believed that it in conjunction with us could maintain the old rate of the precious metals.

The countries of the Latin Union have a vast amount of silver, and it is much more important to them to maintain the equality of silver with gold than it is to us even yet, and still they are not willing to do so with our help; how much less must they believe in our power to do this unaided! Therefore, upon thinking that they saw the approach of silver mono-metalism in this country, they would also think that our gold coins were better property than our silver coins, and would take steps at once to get our gold and to save themselves from the possibility of getting our silver.

They would do this by selling all the securities created in this country for which they could find a market. They would seek that market here, and the result would be that, for a time at least, this country would have the use of much less foreign capital than it has now. Certainly the first result of this action on the part of foreigners would be to depress all values here, and to create more or less scarcity of money in this country. Every one can answer for himself whether this condition would be well for us or not.

A strong illustration of the heredity of crime is the case of Charles Ford, recently hanged at Ottawa, Ill., for the brutal murder of a travelling salesman from Omaha, named David Moore. It now turns out that Ford's real name was Rufus, an illegitimate son of the notorious murderer of the same name who was hanged in Binghamton for murder several years ago. Like his father, Ford had a splendid education.

Some wide-awake southern business men have invited Mr. Harrison and Mr. Cleveland to attend the industrial exhibitions which are to be held in several southern towns this fall. If both of them should accept and visit the exhibitions at the same time what a royal advertisement it would make for the south.

Superintendent Draper says that at the next annual apportionment, no district will be allowed to share in the distribution of school moneys which is not shown by the certificate of the school commissioner, to have fully complied with the requirements of the statute in regard to out-buildings.

Sunstroke is not an accident, but a disease of the brain. So a United States Circuit Court judge has decided, in an accident insurance case.

Elder Darby brought into this office on Saturday last, a quantity of the largest and finest strawberries we have seen this year. He also left with us a mammoth hen's egg, nearly as large as a goose egg. These are products of the Elder's "ranch" on Cheaugost, and plainly demonstrate that "good goods" can be raised right here on the corporation, especially if you know how, as the Elder seems to.

A. B. Carman, of Binghamton, who was awarded the contract for the building of the Poor House in Preston, has bought his brick here of P. Byrne and his course lumber of John Leves, of Plymouth. He has also let the building of the foundation to Norwich Blue Stone Co. By Mr. Carman's act, some of the money will be left in the county. —Telegraph.

The Independence Ball given at the Ticker House, Smithville Flats, Friday night, was a great success. The weather was largely against a large attendance, a big storm raging and the rain coming down in torrents, yet 105 couples joined in the jolly dance, and they had a grand time, generally.

Wm. Sherer, Grand Master of Masters of the State of New York, has appointed Horace E. Allen, of Binghamton, District Deputy Grand Master of the Eighteenth Masonic district, which comprises the counties of Broome, Chemung and Otsego, with thirty lodges.

Town officers will bear in mind the fact that on or before the 1st day of August, 1891, they must either divide the existing election districts in such a manner that each shall not contain more than 400 voters.

The usual racket was again indulged in by "the boys" the night before the Fourth, and although noisy, no serious harm was done, and considering the occasion, everything passed off smoothly.

At the races at Whitney's Point on the Fourth of July the racing horse belonging to T. P. Howland, was so seriously injured from bolting the track and striking a fence that he had to be killed.

Green peas and new potatoes made up a portion of the Fourth of July dinners of a number of our citizens who have been nursing their gardens ever since the snow disappeared last spring.

The State Railroad Commissioners have decided not to order a bridge built over the railroad tracks at Chango street, Binghamton, a very dangerous locality.

The Deer Spring Creamery at Tyner, conducted by Flag & Cahart, paid for April \$1.07 per hundred, and for May 84 cents, much to the gratification of the patrons.

There will be a meeting of the Y. W. C. T. U., Thursday evening, July 9th. A full attendance is desired. All are requested to wear the regulation white ribbon.

Six new members have been added to the Binghamton police force. This increase makes quite a formidable array of "cops" in the Parlor City.

Oxford, Sherburne, Alton and Plymouth, are the only towns in this county that celebrated the Fourth. The eagles screamed in great state.

The directors of the Delaware, Lackawanna and Western road have declared the regular quarterly dividend of 1 1/2 per cent, payable July 20th.

We would like a bright, newsy correspondent at Smithville Flats.

The Fourth is over, and no person killed in Greene.

Hannibal Hamlin, ex-Vice President of the United States, died at his home in Bangor, Maine, at 81 1/2, Saturday. He was the only ex-Vice President of the United States living, and his career was almost unparalleled in length of public service. From 1833 to 1883 he almost continuously held office. There is general grief over the death of Mr. Hamlin. Many expressions of sympathy have been received by the bereaved family.

The Kanawha and Michigan train went through a thirty-five foot trestle at a farm eight miles from Charleston, W. Va., on July 5th. The trestle was burned out. The engine passed over safely. The baggage car and two coaches went down. Fifteen persons were killed and fifty-eight injured, most of them seriously.

New York, July 6.—The steamship Alvena, from Jersey City, arrived this morning. She left Jersey City June 25. She reports 200 persons were put to death just before the vessel sailed, by order of Hoppolyte, at Port au Prince. An outbreak is liable at any moment.

California's honey crop is a failure this season. Hives that yielded tons last year will not produce so many pounds this year.

Captain Andrews and his dry boat were spoken 63 miles out by a schooner on the 26.

At Buenos Ayres Saturday, gold was quoted at 261.

Personal. —J. H. Moore, Esq., of Chicago, was in Greene over Sunday, visiting with his mother.

—Mrs. J. S. Wood and daughter, Miss Flora Gilbert, Miss Susie Lyon, Miss Verne Allen, Dell Peck, H. H. Smith, and W. D. Lyon are at Echo Lake.

—Mr. Joseph Harrison and family, of Binghamton, spent Sunday with Mr. and Mrs. James A. Harrison.

—Mr. and Mrs. Clem Miller spent Sunday in McDonough.

The birth in the United States of a real Chinese baby, with the typical olive cheek, almond eyes and tiny feet of its race, and with the royal blood of its mother, occurred at the Chinese legation at Washington last week. It was a girl, and the father is Tsui Kwo Yin, the Chinese Minister to the United States and Peru. No one but the nurse can see the young one for thirty days.

The condemned men who are to be executed in Sing Sing prison this week are: Shebiya Jigiro, a Japanese, who killed a countryman named Mura Cami in a sailors' boarding house, New York, Nov. 10, 1889; James Slocum, who killed his wife, Nellie, on Jan. 1, 1890, who was formerly a ball player; Harry A. Smiler, who killed his mistress, April 3, 90. All are of a low class of criminals.

They were executed Tuesday morning.

A cyclone occurred in Audubon county, Iowa, Thursday evening. A large number of houses in the track of the storm were destroyed and a number of persons were injured. One man is killed. There was a heavy fall of hail, doing much damage to crops.

The firemen's tournament at Walton Friday, was a great success. There was a large attendance of firemen and others, and the programme was satisfactorily carried out. The Hobart running team won the horse race in 47 seconds. Maydole Hose of Norwich, won second, in 47 1/2 seconds.

For six weeks there has been a strike of housemiths in the city of New York, which kept about 12,000 men out of work, at a loss of \$225,000 a week. It was for eight hours a day. The strike has now collapsed and many of the men cannot now find work.

The Republican State Committee will soon be called together to fix a date for holding the State Convention. The meeting of the committee will be held at the Fifth Avenue Hotel in New York.

"Frenzy," who was on trial last week for the murder of the old woman "Shakespeare," in New York, was found guilty of murder in the second degree and will be sentenced Friday.

Saturday's steamers took out from New York the largest mail ever sent from this country in one day. It aggregated 716,000 letters and 553 bags of papers.

Eight ocean liners sailed from New York for Europe Saturday with their state rooms filled with summer tourists.

Alanson H. Meeker, vice Frank G. Bollos, removed, has been appointed Postmaster at Unadilla.

Type Setting Machines. The Albany Journal gives the following concerning the type setting machines used in that office. It says: Upon the 29th day of April last The Journal announced that five Mergenthaler type-setting machines had been placed in this office. Some three weeks were consumed in getting the machines into operation before operators were put upon them, but they have been in operation now about five weeks. Men entirely unaccustomed to the working of the machines (our old hand compositors) were put upon the linotypes, and it is satisfactory to announce that yesterday the whole paper with the exception of the markets and the heads,—which it is impossible to set other than by hand—was composed of linotype bars set by five men in our office, making a total of 116,875 ems, an average of 23,375 per man, each man working eight hours, which makes approximately 3,000 ems an hour, whereas by hand 1,000 ems an hour is considered good work.

The record of the linotypes in The Journal office for the first week in which the total number were in operation, ending May 30, was 436,849; for the week ending June 6 the amount was 519,968; for the week ending June 13, 565,664; for the week ending June 20, 565,664, and the record for the week ending June 27 will certainly be over 600,000. It should be remembered that the men who are now operating the linotypes in this office are all new men and none of them have had at the present time over seven weeks' experience. It is not too much to expect that within the next three months they will be able to set fully 800,000 a week. The general adoption of the Mergenthaler linotypes in view of these figures, certainly cannot be other than a matter of time.

Dairy Markets. Utica, July 6.—The transactions on Board of Trade to-day were as follows: Cheese—300 boxes at 7 1/2c; 6,950 boxes at 7 1/2c; 1,545 boxes at 7 1/2c; 3,000 boxes at 8c; 1,430 boxes at 8 1/2c; 1,132 boxes at 8 1/2c; 200 boxes at 8 1/2c; 1,265 boxes on commission.

There were 76 packages of creamery butter sold at 17 1/2c; cheese 4c lower but strong at decline.

Little Falls, July 6.—The transactions here to-day were: Cheese—3,510 boxes at 7 1/2c; 3,113 boxes on commission; 950 boxes farm dairy same range.

Butter—45 packages creamery butter at 17 1/2c; 20 packages dairy butter at 16 1/2c.

At 3 o'clock Friday morning, at Lakewood, Ohio, on the New York, Lake Erie and Western railroad, train No. 8 fast express bound for New York, while standing at the depot awaiting orders, was dashed into from the rear by a freight train. A day coach in the rear was completely telescoped and nineteen passengers were killed and thirty-eight severely wounded.

The coach and two sleepers took fire and were soon consumed, together with the bodies so that they were almost unrecognizable. A special train with surgeons and nurses was sent to the scene from Youngstown, Ohio.

While a trainload of tea was being run into a freight boat at San Francisco Saturday night, one of the cars containing 20,000 pounds of tea broke loose, and the tea was emptied in the bay.

It is said that documents in his possession have convinced Inspector Brynes that Frenchy and the London "Jack the Ripper" are one and the same person.

Cape May, July 6.—The president emphatically denies the report circulated by some that Secretary Blaine intended to resign.

At Hartford, Saturday, W. F. Murphy, of Brooklyn, broke the mile bicycle record in 2:25 4/5.

Prince George, of Greece, sailed for Europe Saturday morning.

Twelve persons were poisoned at a picnic near Alton, Mo., Sunday.
