

Nebraska went Democratic. Maryland went Democratic by about 15,000.

Ohio elected Nash Governor by a reduced majority.

It is said that the Norwich condensation will cost \$150,000.

T. C. Hall said the Republicans would win by a majority of 18.

Elliot Danforth reported that the Democrats would win in the contest for the Assembly.

Democrats carry N. Y. city by 50,000. Mazet beaten by 393. The legislature Republican.

James S. Adee died Tuesday, aged about 60 years. Mr. Adee was a substantial farmer, a veteran of the rebellion and a greatly respected citizen.

Admiral Dewey announced his engagement to marry Mrs. Hazen of Washington. Mrs. Hazen is a sister of John R. McLean, the present candidate for Governor of Ohio.

Evolution is the process by which the monkey is related to the man, but the process was so slow, says the Scientist, that neither the monkey nor the man knew anything about it.

Frank Tryan was arrested last week near Leonta by an officer from Hancock. He was wanted for forgery. He has been working by the day in the vicinity of Treadwell for some time.

Our own war in the Philippines and the British war in South Africa are making large markets for American farm produce. The evil wind of war blows good to our farmers.

An exchange compares our Philippine trouble to that of a refractory child that cost \$20,000,000, and thinks that we, therefore, have a right to spank it, or words to that effect.

Divorces.—Judge Mattice granted a divorce to Daniel Richard from his wife Hannah. The parties live in Sanford, Broome county; and to Clayton Chase from his wife Carrie. Parties are of Pittsfield.

Professor Sackett, of Margaretville, has accepted temporarily the principalship of a school at Samsonville, Ulster Co., and January 1st he will have charge of the High School at Ravenna, near Albany.

The engagement of Admiral Dewey to John R. McLean's sister added interest to the idea that the Admiral might be a candidate for the presidency. He, however, positively denies that he entertains any such ambition. It may be that his accomplished bride may induce him to change his mind.

The fight politically in this State was centered for the control of the Assembly. If the Democrats get it, the meaning is that they have power enough to carry the State by 50,000. No less majority than that warrants the control of either branch of the legislature under the present gerrymander of the State.

Prof. R. B. Sullivan of Unadilla, died last week aged 83 years. Prof. Sullivan was principal of the Unadilla Academy several years, and for two years was the proprietor of the Unadilla Times. Having suffered a stroke of paralysis he was obliged to retire several years ago. He was very prominent as a man.

What the System is? Vice President Hobart is fatally ill with cancer of the stomach and heart disease. He is confined to his bed. His physicians give no encouragement.

Will the Champion. Justice and Sharkey met Friday night and after a remarkable contest Justice remains the champion of the world. The contest was limited to 23 rounds and the limit was reached. Neither was knocked out and the referee decided in favor of Justice. Sharkey forced the battle and Justice had to admit that he gave him a great battle. Sharkey's friends claim the decision of the referee was unfair.

What the System is? The present manner of voting is all the interest of straight tickets. Take notice. The Oneonta Star gives advice in these words: "Both parties agreed upon two things: first, that they were to attempt to vote a split ticket; second, that they were to attempt to vote a split ticket."

What the System is? The present manner of voting is all the interest of straight tickets. Take notice. The Oneonta Star gives advice in these words: "Both parties agreed upon two things: first, that they were to attempt to vote a split ticket; second, that they were to attempt to vote a split ticket."

ROYAL BAKING POWDER. ABSOLUTELY PURE. Makes the food more delicious and wholesome.

ELECTION RETURNS.

Table with columns for Towns (Delos Axtell, Charles Warner, Hugh Adair, etc.) and corresponding election results.

The Election.

The election in this county was a decided rebuke to the Ring. Herring's vote in Delhi giving him 214 majority was nothing unless it was to show that the Republican electors wanted no more machine work.

Walton gave Herring 198 majority. This may have partly been personal popularity, but it was mainly to rebuke the way the conventions have been run. The same can be seen in nearly every town in the county. Adair was elected Treasurer by about 300 majority while the average majority for the balance of the ticket will be nearly 1500.

Thieves at Sidney Center. Thieves broke into Anderson & Son's new store on Depot street by way of the back door last Sunday night and helped themselves to clothing, shoes, etc. The same night Bowman's mill was entered and the money drawers ransacked, but fortunately Mr. Bowman had not left any money there. Several other instances of petty thieving have come to our ears of late. Charles Fuller's gold watch, which was stolen from his shop a few weeks ago, was returned to him last week by reason probably of a warrant awaiting the arrest of a certain individual as soon as he could be found. Possibly some of the other missing articles could be brought to light the same way.—Times.

Bicycles Not Baggage. The passenger department of the New York Central railroad has issued the following circular: Bicycles are not baggage, so declare the three judges of the St. Louis Circuit Court of Appeals. The baggage-man of a Missouri Pacific train refused to receive a bicycle in his car. The owner brought suit for mandamus to compel the company to carry his vehicle under the same provisions as those for ordinary baggage, and was successful in the Circuit court. The company appealed and its practice has been sustained.

A Fireproof Barn. D. W. Lewis, the well known commission dealer, is building a barn on his place at Rock Royal, to replace one burned some time ago, which he is making absolutely fire proof. It is about 83 feet square and 37 feet high. The roof is mansard. The framework is entirely of railroad rails and the sides and ends of stone. The floors throughout the big building are of stone. The only piece of wood in the barn is the stanchions for the cattle and it is proposed to replace them with iron.

Rev. Mr. Gail at Penn Yan. Press dispatches from Penn Yan say that that town and surrounding country are under great religious excitement on account of the meetings held there by Rev. W. B. Gail. All business is suspended during the evening hours, even the 40 saloons and hotel bars are closed during the meetings. Before the evangelist went to Penn Yan, 1,000 meetings were held to prepare the public mind for his magnetic appeals. Mr. Gail will proceed to Buffalo, where similar preparatory meetings are being held.

Summer Hotel Burned. CARROLL, N. Y., Nov. 5.—The Bijou, a summer hotel at Edinco Corners, on the mountain top, was destroyed by fire at 9 o'clock this morning. The hotel, owned by Samuel Haines, afforded accommodations for fifty guests, and was partially insured. The fire started near a chimney. Silverware, clothing and all furnishings except a portion on the first floor, were consumed.

Osteo County White Caps. It is reported that a pair of white caps were taken from a man and woman at Burlington Plate to a coat of tar and feathers on Friday night last. It is said the white caps numbered some twenty or thirty of the best elements, and that both the man and woman were entirely denuded of their clothing and a heavy treatment of tar and feathers applied to both.—Edinco Local.

What the System is? The present manner of voting is all the interest of straight tickets. Take notice. The Oneonta Star gives advice in these words: "Both parties agreed upon two things: first, that they were to attempt to vote a split ticket; second, that they were to attempt to vote a split ticket."

On Account of Domestic Troubles.

Edmund F. Stapleton came to his death, in Oneonta, Oct. 29, 1899, from a wound inflicted by a ball, fired from a pistol, which ball entered the left breast, penetrating the left lung and lodging against the spine, and was the immediate cause of death; the said Edmund F. Stapleton, with the premeditated design of causing his own death, he being in a morbid condition of mind, on account of domestic troubles.

All on Account of Politics. The potato crop of this county the present year is one of the largest ever raised, a matter of great deal of importance as affecting the question of food supply. The yield is estimated at 243,000 bushels, or about 40,000,000 bushels larger than in 1898, and 65,000,000 bushels larger than in 1897. The yield per acre this year is estimated at 81 bushels, which is slightly below that of 1895, but far ahead of last year, or 1897, when it was but 64 bushels.

Miss Gould Gives \$5,000. Miss Helen Gould has given \$6000 to the League of Social Service, to be used in the crusade against Mormonism. In pursuance with her directions the league has issued 1,470,000 pamphlets, aimed at Mormonism and Roberts and they will be distributed all over the United States.

Norwich Booming. Norwich is said to be booming as a result of the Borden locating there. It is now understood that the plant will be a condensation instead of a bottling establishment, as reported, and one of the largest in the world. Real estate is advancing and there is a general looking up of Norwich interests.

Following the Novelty Works. Owing to the failure of the Walton Novelty Works and his inability to collect for goods trusted out to employers of that concern, H. C. Toby, the grocer, on Monday went into voluntary bankruptcy and closed his doors.

The Norwich papers talk as if the rest of Chenango county and part of Clarkstown is to be roofed in for their bottling works. We felt that way for several weeks over here and expected to have to go over into the other county and shut up into Oregon. They are to get a look at the sky. They also claim that our patron saint, Gail Borden was born over there, too, which makes his seventeenth birthplace discovered up to date. His sixteenth birthplace was here and we can show not only the house where he first saw the light, but the very room where he commenced condensing milk, as soon as he could locate the plant, about half an hour afterward. The locating committee told the delighted citizens at every place they expect to organize a plant that Gail was born there, which is good for the stipulated number of thousand dollars asked for. Norwich seems to have absorbed a good deal of the interesting event but there is enough of it left yet to establish a condensation or bottling works wherever a cow can be discovered, from Maine to California. —Mt. Upton Dept. of the Gilbertville Journal.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable. Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kimmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kimmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kimmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kimmer, 100, King Street, New York, N. Y. Regularly fifty cents and a dollar size are sold by all good druggists.

To Mrs. Sherwood on Her Birthday. Some of us are Expansionists, and some of us are not. Some of us like a horse to pace, and some would have him trot. Some of us wish olives, and some of us don't bear 'em. And some of us like Browning, and others "David Harv." "Dreyfus matter." "The culture that the scheme of life, of art and thought embraces." The knowledge that our Nation's course from great to greater traces. The humor, fact, and gentleness, the logic and the truth, that make her in the youth of age, the charm of age and youth. Whatever be the gifts we have—or those we'd wish to have. We'd pledge them all to-night to her who is our Queen and toast— This is her hour. Here every heart her glad rejoicing slave is. Who tenders not his homage now an ingrate or a leaver is. Upon the past our friend can look with confidence and honor. The Present pours from many hearts their love and homage on her. The Future will her name preserve, a nobly valued treasure. The world's estate of learning and of pleasure. But not the Writer, not the Poet, and not the Great orator, with wine and cheer We just would take her hand, And say we love you for yourself, with love we'll always love you, oh, dear and honored friend.

OTMAR Mergenthaler died recently and it is attracting attention that a man who did so much to change the working of the printers receives so little notice. By means of his invention one man can do the work that employed eight, and the difference in cost has made it possible to produce a flood of reading matter over the whole country. Many inventors had tried to make machines which would automatically set type, but not one of them was successful. They all worked on wrong principles until Ottmar Mergenthaler commenced in the city of Washington his experiments which, after eight years resulted in the Linotype. It was his first thought of the idea of assembling matrices and then by the forcing of hot metal into them, making a complete line of type with each operation of a machine. Everybody who is familiar with typesetting machines knows how by operating the keys of the machine, just as the keys of a typewriter are operated, the matrices fall one by one, arrange themselves in a row, and when the end of a line is reached travel over in front of a retort filled with hot metal, where an automatic device drives wedge-shaped spaces up between them in order to make the line of just the proper width, and then a pump forces the hot metal into the mould, the bottom of which is formed of the matrices. Then the matrices are taken up by the arm of the machine and separated from the space bands, after which each is dropped into its proper groove in the magazine above the keyboard and thus the operation of the "endless chain" is completed. Each journey of matrices, from the key to the distribution point, marks the creation of a line of type and that is where the machine gets its name. It is the consolidation of the expression "line o' type."

To Be Commended. The Board of Health are to be commended for their prompt and wise action in regard to contagious diseases. At a special meeting it was voted that the trustees of Deposit Union Free School be notified to close the first, second, third and fourth grades of the school indefinitely for reason of several cases of diphtheria that have developed in those grades. Voted that the poor master of the town of Sanford be ordered to provide a nurse and other necessaries as in his opinion may be required to the family of Frank Corey, which has been quarantined by order of the board of health for reason of the illness of his child with diphtheria. Voted that all suspected cases of diphtheria be placed under temporary quarantine.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. P. J. CHENEY & CO., Props., Toledo, O. We, the undersigned, have known P. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. WEST & TRACY, Wholesale Druggists, Toledo, Ohio. WATSON, KINMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 50¢ per bottle. Sold by all druggists. Testimonials free. Hall's Family Pills are the best.

GRAIN-O BRINGS RELIEF to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25¢ per package. Eight students of the Oneonta Normal have accepted the Government's offer to teach English in Porto Rico. Two of them sailed last week, Harry Fish and Paul Taylor. The others are Mrs. Lonnie Faulkner of North Brookfield, Miss Charlotte Tobey, of Morris; Miss Jessie Palmer, of Deposit; Miss Sarah Moses, of Oxford; Frank B. Chapman, of Wells Bridge; and Franklin Yates, of New Lisbon. To each of these teachers the War Department promises free transportation and guarantee a salary of \$60 per month in gold. There is also an allowance for rations and quarters, and as a farther inducement it is stated that teachers will have opportunity, by teaching outside the public schools, largely to add to the salary paid.

Dead's Are Fruit. Words are but leaves. It is not what we say, but what Hood's Sarsaparilla does that tells the story. The many wonderful cures effected by this medicine are the fruits by which it should be judged. These prove it to be the great, unequalled remedy for dyspepsia, rheumatism, scrofula, salt rheum, catarrh and all other ailments due to impure or impoverished blood. Hood's Pills cure all liver ills. Non-irritating.

David Laidlaw, of Auburn, Wash., a former resident of Bovina, was drowned in the White Horse rapids in the Yukon river, Alaska, October 31. He was on his way with a party to Dawson City, their outfit being on a scow. They attempted to shoot the rapids without a pilot and the scow struck a boulder and was wrecked. Laidlaw and an Englishman by the name of Robinson were drowned. Robinson's body was recovered but Laidlaw had not been at last accounts. Laidlaw went to the state of Washington some ten years ago and has since been a resident of that state. When the Klondike boom came he engaged in various enterprises in Alaska.

The creamery, located about one mile from Franklin on the Otsego road, was burned to the ground, Nov. 7th with contents. Loss, \$1,500. Insurance, 600.

SCOTT'S EMULSION. looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact. The hypophosphites that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body. Clean blood means a clear skin. No beauty without it. Cascarets, Candy Cathartics clean your blood and keep it clean by stirring up the lazy liver and driving out impurities from the body. Begin today to banish pimples, boils, blotches, blackheads, and that sickly yellow complexion that is the result of impure blood. Cascarets—Beautify for ten cents. All druggists, satisfaction guaranteed, 100, 250, 500.

"TAKE CARE

of the penicils and will take care of themselves." Large things are but an aggregation of small things. If we take care of the small things we are in effect taking care of the large things which the small things combine to make. That is the philosophy of the old financial proverb, and its application is as broad as human life. Take care of what you eat, when you eat, and how you eat, and your stomach will take care of itself. But who takes care of such trivial things? That is why, someday, the majority of people have to take care of the stomach. When that day comes, there is no so effective in undoing the results of past carelessness as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, and restores the organs of digestion and nutrition to a condition of healthy activity. It cures biliousness, heartburn, flatulence, indigestion, palpitation, dizziness, cold extremities, and a score of other ailments which are but the symptoms of disorder in the stomach and its allied organs. If you are sick you can consult Dr. R. V. Pierce, Buffalo, N. Y., by letter, free of charge. Each letter is treated as sacredly confidential, and an answer is promptly sent in a plain envelope without printing or advertising upon it. I was troubled with very frequent headaches, often accompanied by severe vomiting, writes Mrs. Mary Bell, Sumner, S. D. Disco, Dural Co., Texas. "My bowels were irregular and my stomach and liver seemed continually out of order. Often I could eat almost nothing, and sometimes absolutely nothing for several days at a time. I was entirely unfit for work, and my whole system seemed so run-down that I feared a severe sick spell, and was very much discouraged. I was advised to try Dr. Pierce's Golden Medical Discovery and did so, and to my great surprise, I felt perfectly able to undertake the duties attending public school life, and continued to do so. I most heartily advise those suffering with indigestion, and attendant evils, to give this great medicine a fair trial. Use only Dr. Pierce's Pleasant Pellets with "Golden Medical Discovery" when a laxative is needed.

Non-Partisanship Among Postmasters.—Great Scott! Mr. Odell has been writing letters to all cross-road postmasters, of which the following is a copy: STATE COMMITTEE ROOMS, 5TH AVE. HOTEL, NEW YORK CITY, Oct. 27th, 1899. SIR:—If you expect to have the favor you are now receiving from the Republican party continued, you must get out and support the whole ticket. Yours, B. B. ONEILL. How does this comport with the Republican claim that postmasters should take no part in partisan politics?—Monticello Watchman.

"One Year's Seeding, Nine Years' Weeding." Neglected impurities in your blood will sow seeds of disease of which you may never get rid. If your blood is even the least bit impure, do not delay, but take Hood's Sarsaparilla at once. In this course there is safety; in delay there is danger.

Dr. Finner's GOLDEN RELIEF. INFLAMMATION OF THE BLADDER, URETHRA, AND URINARY ORGANS. CURES ANY FRAIN INDEED OR OUT. In one to thirty minutes. No delay. The dose is by mail, 50¢.

Dr. W. D. Heimer, of Hamden, has been appointed a member of the board of examiners by the commissioner, in place of Dr. George E. Smith, of Masonville, removed from the county.

MICA AXLE GREASE. Lightens the load, saves the road. Helps the team. Saves wear and expense. Sold everywhere. STANDARD OIL CO.

Have You Heard of It? You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

SCOTT'S EMULSION. The many friends of the Hon. L. Coe Young will be pleased to know that he has recovered health sufficiently to again resume his duties regularly as baggage master. He was confined to his home for nearly six months with a complication of heart and stomach troubles and Bright's disease.

The Governor's Thanksgiving Proclamation.

Governor Roosevelt's Thanksgiving proclamation gives very much the impression of firing a revolver in the middle of a prayer, or of making the responses with three cheers and a tiger. To stuff a stump speech, as Mr. Roosevelt has done, into a call to prayer and praise is in wretched taste, to say the least, and will jar upon the ears of the devout in a way that our slap-dash Governor probably little suspects. A Thanksgiving proclamation is a quasi-religious document. Time-honored platitudes inevitably find their place in it, and can be pardoned; but it is a shocking thing to draw one up in the spirit of Arizona Pete. If we are to have Rough Riding in the churches, the plight of the piously inclined will be truly sad. And there is impudence approaching the sublime in the Governor's thinking it necessary to remind the people of this State that they are Americans as well as New Yorkers, and in his calm assumption that the nation now for the first time feels "the flush of its mighty manhood." There is a flush which it might well experience on reading the Governor's silly proclamation, and that is the flush of shame that an American in high place should intrude his noisy boating upon assemblies met for divine worship.—N. Y. Evening Post.

Market Report. THE MONEY MARKET STRAIGHT BUTTER, POULTRY, EGGS, &c. DAVID W. LEWIS & Co., 177 Chambers Street, New York. NEW YORK, Nov. 4, 1899. BOTTLES—Receipts for week 25,138 packages; exports 85 packages. Extra Medium Poor Creameries, 23 1/2-24 21-23 18-19 Creamery, 23 1/2-24 23 1/2-24 18-20 Dairies, 23 1/2-24 23 1/2-24 18-19 Ladies, 17 10-12 15-17 Eggs—State 21 to 22 cents per dozen.
