Not in years has there been so much real estate activity in Morris and vicinity as has been experienced the past few months. During the past two weeks several parties have been looking for suitable homes in Morris, but were unable to find anything available. All of which proves that Morris is on the map and proving attractive to outsiders.

His many friends in town will be pained to know that Principal Ross E. Cameron has resigned his position as principal of the Morris High School to take effect at the end of the present term. He has accepted a call to the principalship of the High School at Roscoe, in Sullivan county, at quite a substantial increase in salary, and the best wishes of the community will go with him and his family to their new home. His successor has not yet been appointed.—Chronicle.

**Drouth Cant Affect This Lightning Rod!**

NO matter how hard the soil bakes, there is always moist earth around the Security ground rod, which insures the high conductivity necessary for sure protection from lightning. This is due to a patented feature found only in

**SECURITY**  
WATER GROUND LIGHTNING CONDUCTORS

The rod is grounded in a water-filled copper tube. Overflow from this tube moistens the soil and keeps it moist. You never have to pour water on ground rod and you always know the Security will give you protection. Security cable is 99.8% pure and guaranteed free from corroding acids. Security Lightning Conductors are backed by 28 years' experience and endorsed by the National Board of Fire Underwriters and many State Insurance Exchanges.
