Owing to a very low water supply, Supt. Harvey Hill requests that all sprinkling of lawns, streets and gardens be discontinued. The present dry season has greatly lowered both the upper and lower reservoirs and if this weather continues in a short time the water will be dangerously low and unfit to drink. But this is only a repetition of what has happened in years past and will continue to happen until a larger source of water supply is procured by the village. Just how long it will take for people to understand the real condition of our water system we cannot tell, but we hope an epidemic will not be necessary to prompt action on the part of the taxpayers.

Paramount Presents

Jack Holt in 'THE CALL OF THE NORTH'

This Saturday Night

'The Call of the North' is an excellent melodrama, well acted, beautifully photographed and replete with human interest. This is a stirring tale of the Canadian wilderness. The emotional urge holds you throughout, expressed in a series of situations, throbbing with vigorous life and fruitful suspense.

My subject is an interrogative point. Consequently have you a car off-buggy whose wheels are so good?

Have you a few thousand ft. of fine dry larch hard maple boards; and if not but have you all the parts that is needed to make those build sets all O. K. at least so far as the part is concerned—in other and in plainer words have you used the new way Bradley & Vocanna patent?

Good by for this time. E. A. Hawkins
