TELEPHONE DIRECTORY 1958-1959

EMERGENCY CALLS

Fire—State Trooper—Medical Aid

Call the Operator, tell her your name and the necessary information. (Be sure to tell her where help is needed)

Federal Bureau of Investigation (FBI).....Call Operator

WARNING: The Penal Law of the State of New York provides that "any person who shall willfully refuse to immediately relinquish a party line when informed that such a line is needed for an emergency call to a fire department or police department or for medical aid or ambulance service, or any person who shall secure the use of a party line by falsely stating that such a line is needed for an emergency call, shall be guilty of a misdemeanor." The law defines an "emergency" as "a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential."

HOW TO USE YOUR TELEPHONE PROPERLY

1. Use your directory to CALL BY NUMBER. From that number the operator knows at once where to place your call.
2. After finding the number, lift the receiver to determine if the line is free. If it is, the automatic ringing phone will signal the operator. If you have the manual type ringer, replace the receiver and ring one long ring, then pick up the receiver.
3. "Code" ringing on your party line may be determined as follows:— All numbers preceding a letter in a group represent the number of the line. If the letter is "Y", the numbers following designate the alternate rings starting with a 'short'. If the letter is "F", the rings start with the designated number of 'longs', and alternate similarly.

Example:— Y12—one short, two longs.
F12—one long, two shorts.

HOW TO USE YOUR DIAL TELEPHONE PROPERLY

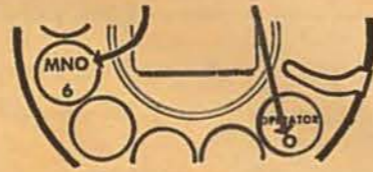

1. Have the right number. Look it up if you are not sure. Write it down. Refer to it while dialing.

2. Lift the receiver and listen for the dial tone—a steady humming sound. Do not dial before you hear it.

3. Then dial the number (see page 2). Be sure to distinguish between the letter "O" and the numeral "zero" when dialing.

In each case, turn the dial until your finger FIRMLY touches the finger stop.

Raise your finger and let the dial return freely until it stops.

DIALING ANOTHER PARTY ON YOUR LINE

Party line customers when calling another party on your line, please follow the instructions shown below.

Exchange	Central Office	Proceed As Follows
Bloomville Cherry Valley Davenport Edmeston Grand Gorge Hartwick Hobart Jefferson Milford Otego Roxbury Schenevus Stamford Worcester	LEhigh 6 Cherry Valley Davenport WOrth 5 JUno 8 Hartwick LEhigh 8 Jefferson ATlas 6 YUkon 8 Roxbury Schenevus OLiver 2 Worcester	Parties on your line can be reached by dialing a code number. If you do not have the code number of the party you wish to call or if you repeatedly encounter a busy condition, dial Operator (Numeral "0") and request her assistance. To call another party on your line, dial the CODE NUMBER and then replace your receiver. Your bell, as well as that of the called party, will then ring until the called party answers. When ringing stops, remove your receiver and begin the conversation. If no answer is received within a reasonable period, lift your receiver for a few seconds and then replace it; this will stop your bell ringing.

HOW TO SAVE WHEN CALLING LONG DISTANCE

SAVING MONEY

1. Call **Station-to-Station** if you are willing to talk to anyone answering. This kind of call is charged for at the lowest rate. It costs you at least 25 per cent less than a person-to-person call. Charges begin when the called number answers.

2. Call **Person-to-Person** if you wish to reach a particular person, department or switchboard extension. Charges do not begin until the conversation with the called party or extension starts. Where the Person-to-Person initial period rate is 35¢ or more, the overtime rate is the same as for Station-to-Station calls.

3. **Reduced long distance rates** apply between 6 p.m. and 4:30 a.m. on weekdays or any time Sundays. The same reductions apply all day Thanksgiving (except calls to Canada), Christmas and New Year's Day.

SAVING TIME

1. If you are calling **Station-to-Station**, give the operator the city, state and telephone number you are calling. If you do not know the number, give her the name and address and say you'll speak to anyone at that number.

2. If you are calling **Person-to-Person**, be ready to give the operator the name of the city, the state and the person you are calling, and the telephone number if you know it.

3. Place your calls **by number**—it's much faster. To record out-of-town as well as local numbers, use the personal numbers booklet which our Business Office will furnish you free of charge.

COLLECT CALLS

Collect calls cost no more than other out-of-town calls, except in the case of station-to-station calls having a basic charge of 25¢ or less. If you want the charge for an out-of-town call to be billed to the called station, tell the Operator you are calling "Collect." If someone at the called station agrees to accept the charge, you will be connected.

Collect calls can be made to all points in the United States, Alaska, Canada, Cuba, Hawaii and Puerto Rico, as well as to points in many other countries. Mobile telephone units can be called collect, when toll charges apply.

A federal excise tax of 10% applies to the total charges for calls from non-coin telephones to points outside the local calling area. From coin telephones there is no tax on calls totaling 20¢ or less, but on calls totaling 25¢ or over the tax is 10% computed to the nearest multiple of 5¢.

ADDITIONAL SERVICES FOR YOUR CONVENIENCE

IF YOU ARE PLANNING TO MOVE

First find out if telephone service is available without delay at your new address. Ask our Business Office people who, if possible, will be glad to reserve facilities in your name for a maximum of 30 days.

Providing new telephone equipment is a complex job and takes time. Orders for moving existing service or installing new service are handled as soon as possible.

Orders which cannot be filled promptly are carefully listed according to dates of receipt, and applicants notified just as soon as their turn is reached.

ADD TO THE BEAUTY OF YOUR HOME WITH COLORED TELEPHONES

Telephone instruments to fit into the color scheme of your home or office interior are now available in an assortment of standard colors. In solid color, the sets come in blue, gray, green, ivory, red, beige, pink, white and yellow. In two-tone, the base is in any one of the above colors, and the receiver and dial are contrasting jet black. The cost for installation is reasonable. Call the Business Office for further information.

"BEEP" TONE TELLS WHEN TELEPHONE CONVERSATION IS BEING RECORDED

A short, high-pitched "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder, the signal is no longer heard. Use of a recorder without this signal is unlawful.

ADDITIONAL SERVICES FOR YOUR CONVENIENCE

SAVE STEPS WITH A BEDSIDE TELEPHONE

Getting to an out-of-reach telephone before the ringing stops can sometimes be just as arduous as dashing to make a train. Trudging up or down a flight of stairs, stopping in the middle of dinner or getting out of bed during the night to answer the telephone can be inconvenient. But having a telephone handy at a moment's notice—whether it be at the bedside, in the kitchen or in the dining room—can make things lots easier. The solution to the problem is simple. Install an additional telephone. Your cost . . . just a few cents a day. Your saving . . . many, many steps and valuable time. The advantage . . . real convenience *plus*. Call our Business Office today and order one.

A PERSONAL NUMBERS BOOKLET IS YOURS FREE

The quickest, easiest way to refer to telephone numbers you call frequently is to have them in your own personal list. We have two attractive indexed booklets for just this purpose—designed after we had asked thousands of telephone users what kind they would like: for pocket or handbag—2 $\frac{5}{8}$ " x 4"—with space for 210 names, addresses, telephone numbers and memoranda; for home or office—4 $\frac{3}{4}$ " x 7 $\frac{1}{8}$ "—with space for 360 names, addresses and telephone numbers. There is no charge for either booklet. Just call the Business Office.

CALLS TO MOBILE TELEPHONES

You can make calls to cars, trucks, trains and boats equipped for mobile telephone service. To reach a mobile telephone, call Long Distance and ask for the Mobile Service Operator.

CALLS TO OVERSEAS POINTS AND CERTAIN SHIPS AT SEA

Calls to practically all the world's telephones and certain ships at sea can be made from your telephone. For information concerning this service, call Long Distance.

ADDITIONAL SERVICES FOR YOUR CONVENIENCE

ARE YOU PLANNING TO BUILD OR REMODEL?

Achieve that added beauty and convenience in your dream home at surprisingly low cost by planning ahead for your telephone requirements. Whether you expect to build a new home or remodel your old one, now is the time to make provision in the blueprints for concealed wiring and outlets conveniently located. The telephone company maintains an Architects and Builders' Consultation Service which provides assistance in planning, without charge. Look under "NEW YORK TELEPHONE COMPANY" in the alphabetical section of this directory.

INTER-OFFICE COMMUNICATION

Your office telephone can be equipped for direct communication with other telephones in the same office. At the press of the button you can talk to your secretary or assistant. This type of communication line may be convenient in stores or homes.

TELEPHONE YOUR TELEGRAMS

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company following instructions shown under the listings of that company in this directory. The telegraph charges will appear on your telephone bill. You may also telephone your telegrams from coin telephones, paying as you would for a telephone call.

ATTACHMENTS TO TELEPHONES & DIRECTORIES

All equipment furnished and directories leased or furnished without specific charge, by the Telephone Company, remain its property. Many items offered free or sold by others for attachment to telephone instruments, directories and other telephone property, interfere with service and infringe on the Company's property rights. The Telephone Company reserves the right to remove such unauthorized attachments and devices from its directories and equipment. Whenever any communication equipment is required for a particular need, please call your Telephone Business Office.

ADDITIONAL LISTINGS MAKE IT EASIER FOR YOUR CALLERS

Extra listings make it easier for someone to find your telephone number in the directory. The listing you get with your telephone service may not be sufficient for your needs. By arranging for additional listings according to your requirements, you can make it easier for a customer, friend or business associate desiring to call you.

Additional listings in the directory—alphabetical or classified—may be secured by calling the Business Office.

HERE ARE SOME TYPICAL ALPHABETICAL LISTINGS.

THE FASTEST WAY TO PLACE A TELEPHONE CALL IS BY NUMBER.

Your telephone company provides for you complete and convenient sources of telephone number information. Foremost among these is the telephone directory which is sent to each customer.

Please return or dispose of your old book upon receiving the new one. You will thereby avoid the possibility of calling wrong numbers through reference to an out-of-date book.

Although the needs of our average customer are met by this directory alone, alphabetical directories of other points are also available.

INFORMATION SERVICE

To find numbers not in your directory or personal list call Information. We suggest that when you do get a number from Information, you jot it down in your personal list to save time when you need the number again.

You can obtain a personal numbers booklet free from a telephone Business Office. Attractive in appearance, the booklet is available in either pocket size or desk size. It has space for hundreds of names, addresses and telephone numbers on its indexed pages.

DIRECTORY ACCURACY

To insure an accurate and useful directory for your convenience, we have very carefully compiled and checked the listings in this book.

However, an occasional error does show up in some directories. You can help us by checking your listing, and, if incorrect, please notify us at once so that the change can be reported to the information operators and the correction made in future issues of this directory.

ALPHABETICAL ORDER OF LISTINGS

Listings in the alphabetical directory are arranged alphabetically according to a person's last name or the first word of a firm name.

Here, briefly, are some of the standard practices followed in the listings of this directory.

Standard abbreviations are used for names and words such as Wm (William), Co (Company), St (Saint), U S (United States) and are placed in alphabetical sequence as though spelled in full.

Punctuation, including apostrophes, commas, etc., are omitted. Symbols such as the ampersand (&) and words such as "of" and "for" are disregarded in alphabetizing, and names containing these symbols and words are listed as though they were not shown.

Names containing hyphens are treated as one word except when the hyphen is used in an individual's surname (John Evans-Harper) or between the surnames of partners (Cooper-Jones Co).

Names beginning with prefixes such as M', Mac, Mc, D', De, Di, la, Fitz, etc. are treated as one word without regard to capitalization or apostrophe.

Words spelled locally as 1 or 2 words, such as Red Hook or Redhook, are treated as one word or separate words depending on which spelling predominates. In such cases a cross reference may be placed at the alternate spelling position.

Letters used as words, such as A B C Carpet Co, are treated as separate words and are listed at the beginning of their respective letters of the alphabet.

Names of streets appear without the word "street," or its abbreviation, in the listing. However, roads, avenues, boulevards, etc., are shown in abbreviated form.

YELLOW PAGES ADVERTISING

The wide-spread use of the Yellow Pages by the buying public means that practically every business and professional firm should be well represented in the Yellow Pages, the people's favorite Buying Guide.

The more prominent a business makes its Yellow Pages advertising, the more business it brings. In a Yellow Pages display ad a business can use an eye-catching illustration—give more product information—point out the dependability of product and firm—stress good delivery service — and other special features.

We would like to explain further why and how Yellow Pages advertising can help bring you more business. Just call our Telephone Business Office.

MAKING USE OF THE YELLOW PAGES

Find what you need *fast . . . easily . . . nearby* in the YELLOW PAGES of your regular telephone directory. Listed there are business and professional people by type of product or service provided. You will find these Yellow Pages convenient and handy to use to find "Who Sells It," "Who Services It" or "Who Can Do It."

IF YOU HAVE DIFFICULTY IN COMPLETING A CALL, DIAL OPERATOR (NUMERAL "0") FOR ASSISTANCE.

CALLS TO OTHER PARTIES ON YOUR LINE

All parties on your line have the same first four numerals in their telephone numbers. For example, LEhigh 6-8034 and LEhigh 6-8039 are on the same line.

To call another party on your line, dial the code "95", then dial the last numeral of your number followed by the last numeral of the number you are calling. For example, if your number is LEhigh 6-8034 and you wish to call LEhigh 6-8039, dial "95", "4" and "9". Then replace your receiver. Your bell, as well as that of the called party, will then ring until the called party answers. When ringing stops, remove your receiver and begin the conversation. If no answer is received within a reasonable period, lift your receiver for a few seconds and then replace it; this will stop your bell ringing.

AMBULANCE SERVICE

AXmnstr 9-3511
LICENSED LADY EMBALMER

Grand Gorge, N. Y.

CALLS FROM GRAND GORGE TELEPHONES ONLY

1. Look up the number.
2. Listen for the Dial Tone.
3. On calls to:

Grand Gorge (JU no 8) ----- Dial the first TWO letters of the central office name and the FIVE numerals.

Thus—To Call JU no 8-6699
Dial JU 8-6699

Prattsville (AXminster 9)----- Dial the first TWO letters of the central office name and the FIVE numerals.

Thus—To Call AXminster 9-3699
Dial AX 9-3699

All Other Points----- Dial Operator (Long Distance) (Numeral "0")

IF YOU HAVE DIFFICULTY IN COMPLETING A CALL, DIAL OPERATOR (NUMERAL "0") FOR ASSISTANCE.

CALLS TO OTHER PARTIES ON YOUR LINE

Always listen before starting to dial to be sure the line is not in use.

Parties on your line can be reached by dialing a code number. If you do not have the CODE number of the party you wish to call or if you repeatedly encounter a busy condition, dial Operator (Numeral "0") and request her assistance.

To call another party on your line, dial the CODE NUMBER and then replace your receiver. Your bell as well as that of the called party, will then ring until the called party answers. When ringing stops, remove your receiver and begin the conversation. If no answer is received within a reasonable period, lift your receiver for a few seconds and then replace it; this will stop your bell ringing.

To call another party on your line, dial the code "95", when dial the last numeral of your number followed by the last numeral of the number you are calling. For example, if your number is LEhigh 8-8034 and you wish to call LEhigh 8-8039, dial "95", "4" and "9". Then replace your receiver. Your bell, as well as that of the called party, will then ring until the called party answers. When ringing stops, remove your receiver and begin the conversation. If no answer is received within a reasonable period, lift your receiver for a few seconds and then replace it; this will stop your bell ringing.
