Take Heed of Tomorrow

YOU may be planning on your financial needs of the future. To some, such planning is to provide an accumulation of sufficient capital to engage in business; to others it is for the purchase of property, a farm, a home, or for securing or giving others the best education; while some there are who have neglected to plan ahead until now it is one of endeavor to set aside sufficient money to care for the time when their labor provides no income.

No matter what the motive is, bank your money. Bank every cent you possibly can. Deny yourself today, if need be, that you may have greater security tomorrow.

Choose this Trust Company as your bank. The large capital and surplus—more than \$1,000,000—and total resources of over Ten Million Dollars stand back of every penny you deposit. Your money will be ready when you want it, and it will work day and night earning interest for you.

Deposit today—any amount more than One Dollar—by mail if you prefer.

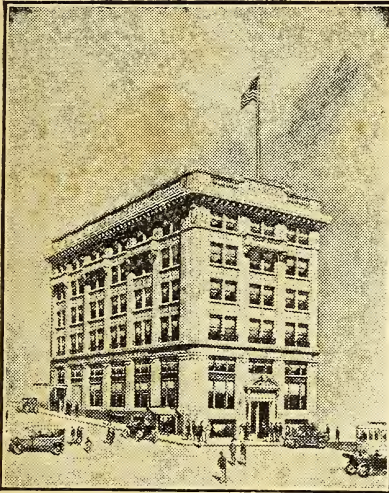

CITIZENS TRUST COMPANY

"The Bank of Personal Service"

Genesee, Columbia and Seneca Sts. Utica, N. Y.

Herkimer County's ONLY Trust Company

IT SEEMS fitting that the old National Herkimer County Bank, after faithfully serving this community for over three generations, should evolve into the **FIRST** Trust Company of this county. With Capital and Surplus of \$700,000 and total resources in excess of \$3,000,000, we offer complete banking service.

The Scope of Our Service

- I. Checking Accounts** Courteous and businesslike attention given to both large and small business and personal checking accounts
- II. Interest Department** We pay $3\frac{1}{2}$ per cent, compounded twice a year, on interest accounts amounting to \$1 or more. Deposits made on or before the third business day of any month, or on or before the 10th day of January or July, will receive interest from the first of the month.
- III. Loans** A. ON BOND AND MORTGAGE: Loans made on real estate security; country as well as city property. B. Loans made on collateral and promissory notes.
- IV. Safe Deposit Boxes** Rates \$2.50 per year and up. For less than 1 cent a day you can free your mind of fear of loss, theft and fire.
- V. Trust Department** Acts as trustee, executor or administrator under will. Agent or trustee for individuals. Other trust powers as set forth in New York State Banking Law.

HERKIMER COUNTY TRUST COMPANY
LITTLE FALLS, N. Y.

American Agriculturist

Charles William Burkett, Editor. Subscription Price, \$1.00 a Year

The one weekly agricultural NEWSPAPER. First of all it is devoted to the NEWS of agriculture. It reports what is going on. It reveals underlying conditions that forecast the influence that will affect agriculture. It reports the changing conditions that confront the farmer and the various branches of his business, as well as his family and social interests.

Its original, exclusive and comprehensive crop reports are a feature of AMERICAN AGRICULTURIST. These reports are the accepted authorities among the producing, transportation, distributing, mercantile and consuming interests. The Orange Judd crop reports are considered more reliable than the government reports, while much more prompt and newsy.

We tell the news about crop conditions, market influences, etc., from one week to a month or more earlier than does the government. AMERICAN AGRICULTURIST is quoted more widely by the daily press and other newspapers than probably all other farm weeklies put together.

In addition to crop and market news, AMERICAN AGRICULTURIST reports weekly what is going on among the farmers, describes the doings of their organizations, and gives the news about whatever is happening in each and every branch of agriculture in the respective sections.

As an agricultural NEWSPAPER, AMERICAN AGRICULTURIST therefore is unique.

None other of the farm press even attempts anything approaching our adequate crop reporting service. During the summer and autumn months, the Orange Judd reports have been the first, the most complete and the authoritative statement of all that was known of the situation from week to week pertaining to the staple crops: Wheat, corn, oats, cotton, hay, tobacco, potatoes, apples. Also all special crops, such as small fruits, vegetables, cranberries, onions, milk, butter, cheese, eggs, rye, barley, buckwheat, rice, etc. Our comprehensive inquiries reveal the relation of agriculture and other fundamental conditions to general business and all industry. Notable examples of this service appear in each issue.

Special Service to Advertisers and Subscribers

Orange Judd service bureau also performs a service to our subscribers and advertisers which may be likened to what Dun and Bradstreets do for their clients, among merchants, manufacturers and bankers.

We give our subscribers and readers SERVICE. We co-operate with them to enable our advertisers to better serve our subscribers and readers, and thus make the advertising columns of AMERICAN AGRICULTURIST of larger usefulness from month to month and year to year to each and every subscriber, reader and advertiser.

The publisher executes a bond of confidence with each subscriber in which we guarantee the reliability of each advertiser and advertisement admitted to AMERICAN AGRICULTURIST.

We seek to build up agriculture, to promote rural life, to foster legitimate business and to insure general prosperity. We strive to build up instead of tear down.

The Standard Authority

upon the technique of agriculture and home interests, AMERICAN AGRICULTURIST is preserved for reference and study as the standard authority upon the best methods of doing the various operations on the farm and in the home.

It constitutes a technical magazine of agriculture, a weekly authoritative encyclopedia of all branches of farming and of home interests.

Most Carefully Read

Our subscribers and their folks eagerly wait the coming of AMERICAN AGRICULTURIST, to get its news in all phases of agriculture, its crop reports, its market forecast, its price quotations.

They study it for reliable and authoritative information upon the technique of work on the farm or in the home.

They preserve it as the standard authority for constant reference.

Otsego County Farmers' Co-operative Fire Insurance Co.

ORGANIZED MAY 24, 1886

Home Office - - - Cooperstown, N. Y.

Insurance in force Jan. 1, 1917 - \$5,006,775.00
Losses paid since organization - 242,773.81

This is a purely Co-operative Fire Insurance Company insuring farm property only. Standard form policy authorized by the Insurance Department of New York State.

PLAN

On becoming a member of this Company a membership fee of \$2.00 is paid by the member when making application for insurance. On the 28th day of September in each year an assessment is made pro rata on each \$100 of insurance then in force to pay for losses sustained by members and the expenses of the Company during the year.

All Farmers Should Be Members of This Company The Largest Co-operative Farm Enterprise in Otsego County

This Company is conducted by the farmers themselves, each member having a vote at the annual meeting held on the second Tuesday of January each year.

Economically managed. No reserve required by law. No dividends to be paid stockholders. No taxes. Insurance at actual cost.

Assessments per \$100 of insurance past 10 years as follows: 1907, 20c; 1908, 22c; 1909, 18c; 1910, 30c; 1911, 34c; 1912, 24c; 1913, 22c; 1914, 24c; 1915, 24c; 1916, 38c.

Average 25.6c per \$100 or \$2.56 per \$1000.

Cheapest net cost for farm insurance in Otsego County

Wonderful 9 in 1 Fence Tool

Most useful time and money-saving tool on farm. Combines nine tools in one. Will make, drive and pull staples, cut, straighten, splice, tie and stretch wire, open boxes, repair implements, etc., **QUICKER AND BETTER** than any other tool. Saves wire, staples and hours of time and trouble. Makes old fences good as new. For new fences, saves many times its cost in posts alone and makes **STRONGER** fence.

AGENTS

Splendid quick seller.
Make \$5.00 to \$15.00 a day.
No competition. Write at
once for "Agents' Plan."
Sample \$1.00. Postpaid.

Lasts a lifetime. Sent pre-paid with full instructions on fence repairing for \$1.50. Information free. Absolute satisfaction guaranteed or money refunded. **POSITIVELY. ORDER TODAY.**

Every Farmer Needs These Books

The secret of success in farming is KNOWING why your neighbor gets better results than you do. It is because he KNOWS and you do not, because he has studied the subject and you have not. If you want to KNOW, read the following books. They will show you HOW TO GET results.

Farmers' Cyclopedia of Agriculture. By Wilcox & Smith. A thoroughly up-to-date, practical, concise and complete presentation of the whole subject of agriculture. Farm, Orchard and Garden Crops, Animals, Feeding, Dairying, Poultry, Irrigation, Drainage, Fertilizing, Spraying, etc., etc. 700 Pages.....\$3.50

Fertilizers and Crops. By L. L. Van Slyke. A timely presentation of facts, not only giving practical methods for using fertilizers in crop growing, but placing special emphasis on the reasons underlying their use, etc.....Net \$2.50

Soils. By C. W. Burkett. The most complete and popular work of the kind ever published. \$1.25

The Cereals in America. By Thos. F. Hunt. A comprehensive treatise of wheat, maize, oats, barley, rice, kaffir corn, buckwheat, etc.....\$1.75

Farm Manures. By C. E. Thorne. A practical and most valuable work on manures and manuring, covering every phase of the subject....Net \$1.50

The Book of Alfalfa. By F. D. Coburn. This is by far the most authoritative, complete, and valuable book on this forage crop ever published. \$2.00

The Study of Corn. By V. M. Shoesmith. A most helpful book to all interested in the selection and improvement of corn.....Net \$0.50

Farm Grasses of the United States. By W. J. Spillman. Seeding and management of meadows and pastures. Varieties of grasses for different climates and requirements.....\$1.00

The Young Farmer; Some Things He Should Know. By Thos. F. Hunt. This book is of unusual excellence. It should be in the hands of every farmer, especially the young farmer....Net \$1.50

Plant Propagation, Greenhouse and Nursery Practice. By M. G. Kains. A standard work for nurserymen. Containing directions for propagation of fruits, vegetables, plants, etc. Also chapters on germination, seed testing, grafting, budding, nursery management and the laws affecting nursery stock.....Net \$1.50

Weeds of the Farm and Garden. By L. H. Pammel. This book contains practical suggestions for the treatment of weeds, which should make it of special value to the farmer, landowner, gardener, etc.....Net \$1.50

Vegetable Gardening. By R. L. Watts. Complete, concise and authentic book. It covers every phase of vegetable gardening, and is invaluable as a handbook for practical growers.....Net \$1.75

Semi-Centennial History of Patrons of Husbandry. By T. C. Atkeson. Written by a man intimately connected with some of the most important work of the organization for thirty-five years. No member of the grange or student of rural condition can afford to be without it. Illustrated. 370 pages. 5½ x 7½ inches. Cloth.....Net \$1.50

Federal Farm Loan System. By Herbert Myrick. A practical manual for organizing and conducting national farm loan associations and joint stock land banks. Showing how farmers, investors, bankers, and the public may obtain the fullest benefit of the system. 240 pages. 5 x 7 inches. Cloth.....Net \$1.00

Swine in America. By F. D. Coburn. Every phase of hog raising is considered from the practical standpoint. The book is worth much to any one interested in raising hogs, whether on a large or small scale.....\$2.50

Management and Feeding of Sheep. By Thos. Shaw. A valuable treatise on sheep for American farmers on breeds, breeding, feeding, management, diseases, etc.....\$2.00

Farmers' Manual of Law. By H. E. Willis. This book not only tells farmers how to settle their legal wrongs, but it tells them how not to commit any legal wrongs. The most complete book on the subject.....Net \$2.00

Judging Farm Animals. By Charles S. Plumb. This epoch-making volume will be welcomed by livestock raisers everywhere. Covers nearly fifty chapters, discussing every phase of judging all types of Horses, Mules, Jacks, Beef and Dairy Cattle, Mutton and Wool Sheep, Goats, Lard and Bacon Hogs, etc. Illustrated. 5½ x 8 inches. Cloth.....Net \$2.25

Poultry Breeding and Management. By James Dryden. This book is written for the man or woman on the farm who is interested primarily in making poultry pay: The most complete and exhaustive work of the kind ever published. Illustrated. 416 pages. 5½ x 7½ inches. Cloth. Net \$1.60

FREE ON APPLICATION

Send for our new illustrated catalog, 136 pages, 6 x 9 inches, containing description of the above, and also 500 of the most practical and modern books on farming and allied subjects.

ORANGE JUDD COMPANY

ASHLAND BLDG.

315-321 FOURTH AVE.

NEW YORK

Weights and Measures

Linear Measure

12 in. = 1 foot. 320 rods = 1 mile
 3 ft. = 1 yard. 5,280 feet = 1 mile
 5½ yds. = 1 rod. 3 miles = 1 league

The hand (4 in.) is used to measure horses' heights. The nautical mile is 6,086.44 ft., 1 knot is 1.1528 statute miles. 1 degree is 67.168 statute miles.

Square Measure

144 square inches = 1 square foot
 9 square feet = 1 square yard
 30¼ square yards = 1 square rod
 160 square rods = 1 acre
 640 acres = 1 square mile

The side of a square having an area of an acre is approximately 208¾ feet.

Surveyors' Measure

7.92 inches = 1 link
 25 links = 1 rod
 4 rods = 1 chain
 10 sq. chains or 160 sq. rods = 1 acre
 640 acres = 1 sq. mile
 36 sq. m. (6 m. sq.) = 1 township

Measurement of Land

16½ feet ----- 1 rod
 320 rods ----- 1 mile
 66 feet ----- 1 chain
 10 chains ----- 1 furlong
 80 chains ----- 1 mile
 5,280 feet ----- 1 mile
 40 sq. rods ----- 1 rood
 43,560 sq. ft ----- 1 acre
 1 mile square ----- 640 acres
 660 feet square ----- 10 acres
 208 feet and 8½ inches square, 1 acre
 933 feet and 4½ inches square, 25 acres

Dry Measure

2 pints = 1 quart. 4 pecks = 1 bushel
 8 quarts = 1 peck

Cubic Measure

1,728 cu. in. = 1 cu. ft.
 27 cu. ft. = 1 cu. yd.
 67.2 cu. in. = 1 quart dry measure
 268.8 cu. in. = 1 standard gallon

Liquid Measure

4 gills = 1 pint
 2 pints = 1 quart
 4 quarts = 1 gallon
 3½ gallons = 1 barrel
 2 barrels = 1 hogshead

Apothecaries' Weight

20 grains = 1 scruple
 3 scruples = 1 dram
 8 drams = 1 ounce
 12 ounces = 1 pound

Avoirdupois Weight

16 drams = 1 ounce
 16 ounces = 1 pound
 14 pounds = 1 stone
 100 pounds = 1 hundredweight
 20 hundredweights = 1 ton
 Long ton = 2,240 pounds, used mostly in Great Britain.

Troy Weight

24 grains = 1 pennyweight
 20 pennyweights = 1 ounce
 12 ounces = 1 pound
 1 carat in diamond measure =
 3.2 troy grains

Paper Measure

24 sheets = 1 quire
 20 quires = 1 ream
 2 reams = 1 bundle
 5 bundles = 1 bale

Mariners' Measure

6 feet = 1 fathom
 120 fathoms = 1 cable length
 5,280 feet = 1 stat. mile
 6,085 feet = 1 naut. mile
 7½ cable lengths = 1 mile

Money Goes Rapidly!

WHEN IT HAS NO KEEPER.

PUT it behind steel doors—
put it in this bank—let us
be its keeper—and instead of
“going” it will be “growing.”

THE MILFORD NATIONAL BANK
MILFORD, NEW YORK.

A Unadilla Silo Will Save 50% of the Cash You Now Pay Out for Mill Feed

There is no exaggeration about this claim. Thousands of stock and dairy farmers have increased their profits wonderfully since they erected a Unadilla and began feeding silage to all their farm animals. You can do the same. Write today for catalog illustrating the bet-

ter construction of this superior silo and its numerous labor-saving conveniences. The Unadilla is easy to erect, keep air-tight and never fails to give satisfaction. Prices quoted on request.

4 PER CENT COMPOUNDED QUARTERLY

Founded 1818

Founded 1818

Explanation

The information in this Directory is arranged as follows: 1st, Last name of individual followed by first name and second name initial (if there is a second initial). 2d, Wife's name (if married) in parentheses. 3d, The number of children living at home. 4th, Name of individual's farm, if it has a name. 5th, The individual's business or occupation. 6th, The chief crop or specialty. (Example, grain, poultry, apples or potatoes, means that these are the specialties of the individuals to whom they refer.) 7th, Crop or specialty which the individual has for sale. (Example, s fruit means has fruit to sell.) 8th, Refers to the property upon which individual has residence, O (figure a) designates number of acres in farm owned. O H & L means owns house and lot. T (figure a) designates number of acres in farm for which money rent is paid. T H & L means tenant house and lot. W O S (figure a) designates number of acres worked on shares. 9th, Is the number of the rural delivery route or street address and postoffice from which mail is received. 10th, Is the name of the township in which individual lives. 11th, Is telephone indicated by the letter T. IT and BT. 12th, H (figures) designates the highway on which individual has residence (see map). Explanation: After the name Ames, Everett M. (Catherine), 2ch, "Cold Spring Farm," farmer (general), s pure-bred Holsteins, O130a, rd1, Richfield Springs, Richfield tn T, appears 19. Now refer to map and you will find that the road numbered 19 in Richfield Township, Otsego County, is the road upon which Mr. Ames has his residence. By this plan you can locate any farm included in this book.

Clover alone	tons 1,230
Alfalfa	tons 595
Millet or Hungarian grass	tons 148
Other tame or cultivated grasses	tons 2,004
Coarse forage	tons 62,721

The Linn Tractor

You have all heard of it weighing only four tons and drawing four times its own weight, having a carrying capacity of 5 tons on its own body.

It will work on all kinds of ground because it is of the self-laying track or caterpillar type and has flexible lag bed of our own design and patent. It fits in the hollow places and bends over the knolls and obstacles in the roads and across the lots; in fact, it will run anywhere that a man can walk and draw a good load behind.

This machine is an all-year-round machine. It works as well on the snow as on the dirt. Our sled in front taking the place of the wheels makes it a machine that can be used in the deep snow. This tractor can be seen at our plant, Morris, N. Y., at any time, where demonstrations are given daily to interested parties. Prices on application. Send for catalogue.

The Linn Mfg. Corporation
MORRIS, N. Y.

How To Mix Fertilizers Homemade Fertilizers Pay

Ready-mixed fertilizers cost on an average of \$10 or more per ton than when the various ingredients are purchased separately. In buying materials for home mixing, it is best economy to get the concentrated forms. There is less bulk to handle. They should be as dry and finely pulverized as possible. If they are not, care must be taken to press them through a sieve before mixing is attempted.

Material may be kept on hand for some time, but the fertilizer should not be mixed until it is needed for use.

Some combinations lose value if allowed to stand after they are mixed. No elaborate machinery is necessary. Have some good measures, such as a half bushel, a good pair of scales, a smooth, tight barn floor and some shovels. After pouring the required amount of each of the materials in a pile, shovel it over many times carefully to insure a good mixing. Be sure to protect it in damp weather to prevent any lumps forming. The formulas on next page are best adapted to general use on the farm and the table shows the number of pounds of each ingredient necessary to make up 2,000 pounds, or one ton of the mixture.

Recipes for Home-Mixed Fertilizers

Composition of mixtures

No. formula	Crop for which each fertilizer is intended	Dissolved boneblack, lbs.	Tankage, lbs.	Sulphate of ammonia, lbs.	Muriate of potash, lbs.	Ground bone, lbs.	Sulphate of potash, lbs. *Kainit. †Cottonseed meal. ‡Dried blood. **Ground fish. ***This was used in the south. The popular mixture in the Connecticut valley for raising prime cigar wrapper leaf tobacco is cottonseed meal 2000 pounds, high grade cotton hull ash 1000 pounds, oyster shell lime 500 pounds, land plaster or gypsum 500 pounds, on each acre. Various modifications of the formula are used.

Effect of Materials

Early growth, nitrate of soda, muriate of potash, acid phosphate. *Long growth*, nitrate of soda, blood, cottonseed meal, tankage. *Top dressing grass*, ground bone, acid phosphate, nitrate of soda. *Sandy soils*, nitrate of soda sparingly. *Clay soils*, light potash. *Sour soils*, wood ashes or lime. Do not mix materials containing nitrogen and lime or wood ashes together, or the ammonia will be lost.

Crops Show Soil Needs

Lack of nitrogen in the soil is as a rule indicated by pale green foliage, small leaf and stem growth. No lack of nitrogen is generally indicated by deep green foliage and vigorous growth. Excessive nitrogen generally causes very abundant foliaceous growth and retards fruit development.

The lack of available phosphoric acid is as a rule betrayed by the slow maturing of the crop or its failure to form plump seed. No lack of available phosphoric acid is generally indicated when a soil yields a full grain crop, the seed of which matures early and is full, round, plump and heavy.

Lack of potash is less readily indicated than that of either nitrogen or phosphoric acid. No lack of potash seems likely when corn, potatoes or hay grow well and furnish a good crop and where fleshy fruits succeed.

Mixtures for Various Crops

Corn—With manure: For silage, low to medium nitrogen, medium available phosphoric acid, medium to high potash; for husking or for the cannery, the same, except high available phosphoric acid. Without manure: For silage, high nitrogen, medium available phosphoric acid, medium to high potash;

for husking or for the cannery, the same, except high available phosphoric acid.

Potatoes—With manure: Medium nitrogen, low to medium available phosphoric acid, high potash. Without manure: The same, except high nitrogen.

Oats and Other Cereals—With manure: No nitrogen (possibly a very small amount of nitrate to start crop), high phosphoric acid, low to medium potash. Without manure: The same, except low to medium nitrogen. If grown for hay rather than for grain, medium rather than high phosphoric acid.

Clover and Legumes in General—Low nitrogen, medium available phosphoric acid, high potash. If with manure, omit nitrogen. Ashes or lime in the fall are beneficial.

Grass—Seeding down, with manure, medium nitrogen (from slow forms such as bone meal), low to medium phosphoric acid, low to medium potash. Without manure, high nitrogen. Top dressing nitrate of soda in spring.

Commercial Fertilizer Materials

The strong nitrogen carriers are nitrate of soda 16 per cent, sulphate of ammonia 20 per cent, dried blood 10 to 13 per cent, tankage 12 per cent, nitrate of potash 14 per cent. The latter also contains 44 per cent of potash. The strong phosphoric acid fertilizers are bone tankage 12 per cent, acid phosphate 14 per cent, raw bone meal 22 per cent and steamed bone 25 per cent.

The strong potash materials are muriate of potash 50 per cent, sulphate of potash 50 per cent, kainit 12 per cent, nitrate of potash 44 per cent, wood ashes 2 to 5 per cent. The materials containing both nitrogen and phosphoric

acid are the animal products, such as dried blood, tankage, fish scrap, etc., and cottonseed meal, which carries 7 per cent nitrogen and 1 to 2 per cent phosphoric acid.

Rock phosphates are good fertilizers to use on lands which are deficient in phosphorus and constitute the chief materials from which phosphoric acid is taken. They contain 25 to 30 per cent phosphoric acid. When finely ground and known as floats they form a fairly quickly available fertilizing material.

Among the various by-products which form good fertilizers are the castor bean pomace, the remains of castor beans after the oil has been extracted. It contains 5 to 6 per cent nitrogen, 2 per cent phosphoric acid and 1 per cent potash. Cottonseed hull ashes contain 15 to 25 per cent potash, 7 to 10 per cent phosphoric acid and are very valuable when they can be purchased cheaply. Tobacco stems contain 6 to 7 per cent of potash and 2 to 3 per cent nitrogen and are fine fertilizers for tobacco and small fruits. The stem had best be crushed or ground before being used.

Denatured Alcohol

The Law and Regulations. How the Measure Was Modified to Benefit Farmers. The Chief Provisions of the Law

The amended law relating to denatured alcohol, passed by the 59th Congress, went into effect September 1, 1907. The purpose of the amendments was to further reduce the cost of denatured alcohol, and place its benefits within the reach of the farmers as well as the large distillers. It enables those who wish to

produce alcohol on a small scale to distill it in suitably locked stills, and to have it denatured without the expense of a bonded warehouse which was necessary under the original law of 1906. The provisions allowing transportation of denatured alcohol in tank cars should materially reduce its cost to the consumer. In substance, the amended law makes the following provisions:

Domestic alcohol, when suitably denatured, may be withdrawn from bond, tax free, and used in the manufacture of certain definite chemical substances where alcohol is changed into some other chemical substance and does not appear in the finished product as alcohol.

The provisions of the denatured alcohol law are extended to apply to rum.

The commissioner of internal revenue, with the approval of the secretary of the treasury, may authorize the establishment of central denaturing bonded warehouses other than those at distilleries. To these alcohol of the required standard may be transported without payment of internal revenue tax, and in these warehouses the alcohol may be stored and denatured.

The establishment, operation and custody of such warehouses shall be under regulations and upon the execution of bonds such as may be prescribed by the commissioner of internal revenue.

Alcohol of the required proof may be drawn off for denaturing from cisterns of a distillery, for transfer by pipes direct to any denaturing bonded warehouses on the distillery premises, or to storage tanks in such warehouses. The denatured alcohol may be transported in the same manner and by means of packages, tanks or tank cars, on execution of bonds and under regulations prescribed by the commissioner of internal revenue. Alcohol to be de-

natured may be transferred to central denaturing plants in such packages, tanks and tank cars as come under the regulations of the commissioner.

The section of the new law that chiefly interests the farmers states that distilleries producing alcohol from any substance for denaturing only, and having a daily producing capacity of not over 100 gallons, may use cisterns or tanks of such size and construction as may be deemed expedient in lieu of distillery bonded warehouses. The commissioner of internal revenue will prescribe regulations as to the manner and process of denaturing on the premises where the

alcohol is produced and of transportation of such alcohol.

Farmers who contemplate going into the denatured alcohol business, either on their own account or in co-operation with their neighbors, should write the commissioner of internal revenue, Washington, D. C., asking for full instructions in the matter, also for circulars regarding the process of denaturing alcohol. This will enable the producer to avoid conflicting with the federal law. Full details with reference to denatured alcohol will be found in the book Alcohol, sent by Orange Judd Company, for which the price is \$1.

Good Books for the Fruit Grower and Dairyman

The keen business farmer realizes the value of reading good books, not only for the information that they contain, but for the inspiration to be gained. The following list will prove most valuable to the man who wishes to increase the productiveness of his land as well as increase his income.

DAIRYING

The Manufacture of Ice Creams and Ices. By H. Frandsen and E. A. Markham. This book should be of vital interest to all ice cream makers, dairymen and dairy students. Everything of importance concerning this industry has been included, and the matter is arranged in a clear, practical way. It will be welcomed by thousands as a standard authority on the subject. Profusely illustrated. 5½ x 8 inches. 350 pages. Cloth. Net \$2.00

The Business of Dairying. By C. B. Lane. This book aims to present in a clear and concise manner various business methods and systems which will help the dairyman to reap greater profits. It meets the needs of the average dairy farmer and if carefully followed will lead to successful dairying. Illustrated. 5 x 7 inches. 300 pages. Cloth. Net \$1.25

First Lessons in Dairying. By H. E. Van Norman. Embodies the principles involved in the handling of milk, delivery to factory, shipping station, and the manufacture of butter on the farm. Written in a simple, popular way. Just the thing for the everyday dairyman. Illustrated. 5 x 7 inches. 100 pages. Cloth. Net \$0.50

Modern Methods of Testing Milk and Milk Products. By L. L. Van Slyke and C. A. Publow. A treatise on the various methods of testing milk and cream which are handled with rare skill and yet in so plain a manner that they can be fully understood by all. 286 pages. 5 x 7 inches. Cloth. Net \$1.00

The Science and Practice of Cheese Making. By L. L. Van Slyke and C. A. Publow. A treatise on the manufacture of American cheddar cheese and some other varieties; prepared also as a handbook and work for reference for the daily use of practical cheese-makers in cheese factory operations. Illustrated. 5 x 7 inches. 520 pages. Cloth. Net \$1.75

Questions and Answers on Butter Making. By C. A. Publow. The entire subject of butter making in all its branches has been most thoroughly treated, and many new and important features have been added. Illustrated. 5 x 7 inches. 100 pages. Cloth. Net \$0.50

Questions and Answers on Milk and Milk Testing. By C. A. Publow and H. C. Troy. No other treatise of its kind is available, and no book of its size gives so much practical and useful information in the study of milk and milk products. Illustrated. 5 x 7 inches. 100 pages. Cloth. Net \$0.50

Castration of Domestic Animals. By F. S. Schoenleber, M.S., D.V.S., M.D., and R. R. Dykstra, D.V.M. A practical treatise on the castration and spaying of farm animals. The authors have brought together in this volume all the methods in use in America as well as in Europe.

This book is the most comprehensive work on the subject that has yet been published. Profusely illustrated. 5 x 7 inches. 150 pages. Cloth. Net \$1.25

FRUIT CROPS

Plant Propagation, Greenhouse and Nursery Practice. By M. G. Kains. A standard work for nurserymen. Containing directions for propagation of fruits, vegetables, plants, etc. Also chapters on germination, seed testing, grafting, budding, nursery management and the laws affecting nursery stock, etc. 342 pages. Illustrated. 5½ x 7½ inches. Cloth. Net \$1.50

The American Peach Orchard. By F. A. Waugh. This is the latest and best work on the culture of peaches. Contains full directions for propagation, culture, etc. Illustrated. 5 x 7 inches. 250 pages. Cloth. Net \$1.00

The American Apple Orchard. By F. A. Waugh. In this book chief prominence has been given to the modern commercial methods as practiced in large and up-to-date orchards. At the same time the family orchard is not neglected, for special treatment of this subject has been given. Illustrated. 5 x 7 inches. 226 pages. Cloth. Net \$1.00

Beginners' Guide to Fruit Growing. By F. A. Waugh. This book is written for the beginner. A simple statement of the elementary practices of propagation, planting, culture, fertilization, pruning, spraying, etc. It is a primer for beginners. Illustrated. 5 x 7 inches. 120 pages. Cloth. Net \$0.75

Modern Fruit Marketing. By B. S. Brown. A complete treatise covering harvesting, packing, storing, and selling fruit. Describing the latest improved methods of handling fruit trees, tools used in harvesting, and the methods of handling, grading, packaging, types of packing houses, etc., etc. Illustrated. 5½ x 7½ inches. 304 pages. Cloth. Net \$1.25

Citrus Fruits and Their Culture. By H. Harold Hume. In this volume, the author, one of the foremost experts in this line, has covered very fully the entire subject, scientifically and practically, treating on their botany, history, varieties, culture, diseases, insects, literature, etc., etc. Illustrated 5 x 7 inches. 597 pages. Cloth. Net \$2.50

American Fruit Culturist. By J. J. Thomas. Containing practical directions for the propagation and culture of all of the fruits adapted to the United States, including large and small fruits, as well as sub-tropical and tropical fruits. Illustrated. 758 pages. Net \$2.50

Foundations of American Grape Culture. By T. V. Munson. This is a practical work upon American grapes, suited to all sections of the country. It will be a fine money-maker to every practical vineyardist who reads it. Illustrated 7½ x 10 inches. 250 pages. Cloth. Net \$2.00

FREE ON APPLICATION

Send for our new illustrated catalog, 136 pages, 6 x 9 inches, containing description of the above and also 500 of the most practical and modern books on farming and allied subjects.

Road and Township Map
OTSEGO AND HERKIMER COUNTIES

NEW YORK

1917

SCALE of MILES

INSTRUCTIONS FOR USE— Each township is bounded by a heavy red line. To determine the road upon which a residence is located in any township, look up the name in the directory for the road number, then look for that road number in the proper township. The letter "H" is used before the number to designate road or highway. For example: to locate Everett M. Ames, farmer, Richfield Township, post office R. F. D. No. 1, Richfield Springs, living on H. 19 (Road 19) one would first locate Richfield Township and find road numbered 19.
