JUDGES TO TEST ATTORNEYS' ZEAL FOR LONGER HOURS

Continued From First Page

Case after case was called by the Judge. First the cruder was explained: "The lawyers are engaged in other courts, then: "The lawyers request a continuance."

All the way down the list, Judge Von Moschizker proceeded, but he failed to get a single case on trial.

"Where are all these lawyers who were clamoring for more time to try cases?" he asked.

The lawyers say, however, that had they known that the cases at the top of the list would be continued they would have been in court ready for trial in the other cases.

Although Judge Von Moschizker seemed amused at the failure of any lawyers to appear in answer to the call of the various cases, he, too, is said to be perfectly willing to extend the sessions of the courts so that the congestion may be relieved.

All the judges, however, will watch the lawyers pretty closely this coming month to see whether they are really anxious for an extension of time for jury trials.

The reasons given when postponements or continuances are asked for will be inquired into very closely. If the lawyers prove that they should have additional time for trials, the Committee of Judges, appointed at a meeting of the Board on Friday, will probably report favorably upon the request of the Law Association.

Changes Proposed. If the report of the committee is favorable, it will probably recommend an extension of the time of adjournment each day from 3 o'clock until 4 o'clock, and the extension of all two week periods of jury trial to three-week periods.

Two weeks period will also be provided for in the month of June, the month of September and in December.

Thomas J. Meagher, one of the leaders in the movement to bring about the extension of time, said yesterday that the efforts of the lawyers was as much in the interests of the citizens generally as of the members of the bar.

"It will give all litigants an opportunity for quick justice," he said. "Sometimes a person bringing suit has to wait one or two, even three years for a trial by jury. With the additional periods of jury trials and an extension of the time allotted to daily sessions the congestion would quickly be relieved."

Assistant District Attorney Joseph P. Rogers, another leader in the movement, declared that the suggested change would be of immeasurable aid to lawyers and litigants alike.

ATTACK ON JUDGE CAUSES SENSATION

Continued From First Page

Justice Pritchard refuses to comment on Attorney General's Denunciation

Appointment of Permanent Receiver for South Carolina Dispensary Creates Turmoil

ASHEVILLE, N. C., March 8.—The attack made on Judge Pritchard by Attorney General Lyon at Augusta, Ga., last night and published this morning wherein the Attorney General severely criticized the action of the Judge in appointing permanent receivers for the South Carolina Dispensary fund, created a sensation in this city, the Judge's home.

It is stated tonight that representatives of some of the authors will call the attention of the court to the Attorney General's attack, and ask Judge Pritchard to enter a bill in equity asking for contempt of court, on the ground that, while reflections on the Judge's personal character are not contempt, the advice of Attorney General Lyon to the commission to disregard the orders of the Federal court directing the deliverance of the dispensary fund of \$800,000 to the receivers, does in itself constitute contempt, in that it tends to actually interfere with the administration of the court and to nullify its powers.

Judge in Silent. Judge Pritchard today declined to make any statement, saying that it was his practice to discuss cases in his court, and that he would not discuss the Federal court directing the deliverance of the dispensary fund of \$800,000 to the receivers, does in itself constitute contempt, in that it tends to actually interfere with the administration of the court and to nullify its powers.

It is stated that Edwin H. Vane will today announce his decision to be a candidate for the Republican nomination to succeed his brother, the late George H. Vane, at the State Senate from the First District.

Mr. Vane has been urged by many of the most active Republicans in the several wards embraced in the district to enter the race for the honor and there is no doubt that he will be nominated and elected to the office.

Harry Green, first ward, and Charles H. Schelling, twenty-sixth ward, have been mentioned for this nomination, but they are not being seriously considered.

By the action of the Thirty-fourth ward Republican Executive Committee on Saturday night the party organization in that ward is committed to the candidacy of Theodore Campbell, an Overbrook resident, for the nomination for State Representative. This district includes the Twenty-fourth, Thirty-fourth and Forty-fourth wards, each one of which will get a representative on the Legislature.

The Republican Executive Committee of the Twenty-fourth ward has endorsed William J. McCarty, a well known real estate operator, with a promise that the members of the committee will support one representative to be undone by each of the three ward committees in the district. Frank Allen, a well known business man, is likely to be nominated by the Forty-fourth Ward Republican Committee.

Several hundred men heard Rev. Dr. William Edward Bierderwolf preach a powerful sermon in "The White Life" at the North Baptist Church, a Camden street, yesterday afternoon. It was directed to young men in particular and some very forceful things were said about their physical and mental failings. Among other things he said: "If it is the gift of fortune, then the smile of fortune often makes a man unfortunate. You may not have to work for a living, but you do have to work for a better character, and a good character has his living made for him. A pretty hard road to hoe if out of the God-given material of his own self he carves and chisels a character that shall stand the test of both time and eternity."

"Great wealth leads many young men into fast life, and fast life is generally the macadamized road downward. Young men, let your ambition rise higher than to be a mere pet of society. Life is a battle, a real stern conflict, and a good character is the only armor that will protect you. There isn't any room for the feather-brained dandy, the unimportant appendix to the web of a society."

PARTY MEN WAIT COURT'S DECISION

Continued From First Page

Right of City Party Voters to Call for Republican Ballots in Question

Edwin H. Vane to Announce Decision Today Regarding His Senatorial Candidacy

Independents and regulars are waiting with evidence of keen interest the outcome of the hearing before Judge Willson and Auerden on the question of the right of citizens who voted a City Party ticket to call for a Republican ballot at the primary election, because of the fact that with the Republican nominees for the judiciary who were on their ticket, City Party voters supported a majority of the Republican nominees at the last election, at which judicial candidates ran.

If the court shall decide that under such circumstances those who voted a City Party ticket can receive a Republican ballot at the coming primaries there may be some uncertainty as to the result in two or three legislative districts in this city at the coming primaries.

City Party men in the Twenty-second ward, which includes Germantown and Chestnut Hill, are at a loss to know what will be the outcome of such a decision, for it would work both ways, Republicans being qualified to call for City Party ballots, and City Party voters being in a position to demand Republican tickets.

Judges Willson and Auerden are expected to hand down an opinion upon this issue today.

It is stated that Edwin H. Vane will today announce his decision to be a candidate for the Republican nomination to succeed his brother, the late George H. Vane, at the State Senate from the First District.

Mr. Vane has been urged by many of the most active Republicans in the several wards embraced in the district to enter the race for the honor and there is no doubt that he will be nominated and elected to the office.

Harry Green, first ward, and Charles H. Schelling, twenty-sixth ward, have been mentioned for this nomination, but they are not being seriously considered.

A pretty hard road to hoe if out of the God-given material of his own self he carves and chisels a character that shall stand the test of both time and eternity."

THIRD YEGGMAN STOLE AT LARGE

Two Wounded Postoffice Robbers Under Arrest Loaded With Money and Stamps

Loot Placed in Woodbury Bank Awaiting Arrival of Federal Inspectors Today

Special to The Inquirer. WOODBURY, N. J., March 8.—All through search was kept continuously all day yesterday and a greater part of the night for the third of the trio of safe crackers who robbed the postoffice at Pedricktown and Bridgeport early yesterday morning and who put up such a fierce fight against the posse of armed men who captured two of them near Wenonah, not the least clue could be obtained, although every strange man seen in various parts of the county was closely examined. The authorities called in the men shortly after midnight, as it is believed that the fellow is safe from capture.

Postmaster Carey, at Bridgeport, said this afternoon that the men got \$305 in cash and \$416 in postage stamps from him, and Postmaster H. M. Green, at Pedricktown, puts his loss at \$265 in cash. The amount of money found on the two men captured, who gave their names as William McCoy and John Burns, the latter from New York, is \$211.98, besides the postage stamps. It is this money and stamps have been turned over to Postmaster Frank Pedrick, of this city, who placed them in bank until the inspectors, J. H. Wardell and R. C. Gibbon, of Philadelphia, come tomorrow, when they will be taken to the city.

Missing Man Had Money. Of the man found on McCoy, he says over \$100 belongs to him, and was not of the amount taken from the offices. From what can be figured out, it is thought the missing third man has been in the city since the robbery, but he has some money, but he did not know how much.

After Dr. Clark had attended the prisoner's wounds, received yesterday morning, George W. Parks, of the Wenonah posse, brought them to the ground with a single shot, the men felt better and consented to take the trip to Bridgeport to put the loot in, and that after driving about a mile and a half from town they hit the bushes. This pouch was found by the children of Henry Jones, exactly in the spot indicated by McCoy. It contained several books and papers, some postal cards and stamped envelopes, with one registered letter that had escaped about 5 o'clock Friday afternoon, asking for the return of the money. The Pedricktown people declare they expect all they could do to save the Postoffice Building from being burned down, as the last of the robbery was the explosion, which knocked over the red-hot stove.

The authorities believe McCoy will tell more when pushed further. Burns will be held in custody until the day after tomorrow, and then only by a look of approval from McCoy. Several Bridgeport men have seen McCoy and Burns, and say they were at the postoffice on Friday night, but went out together and talked a long time outside the building.

Postmaster Carey stated today that he remembers Burns coming in the office about 5 o'clock Friday afternoon, asking for two two-cent stamps, giving a dime as payment. Carey gave him the stamps and six cents in change and waited for the last of the robbery. He saw the customer put the stamps and change in his overcoat pocket, where Sheriff Wilson found them when searching him.

Several hundred men heard Rev. Dr. William Edward Bierderwolf preach a powerful sermon in "The White Life" at the North Baptist Church, a Camden street, yesterday afternoon. It was directed to young men in particular and some very forceful things were said about their physical and mental failings. Among other things he said: "If it is the gift of fortune, then the smile of fortune often makes a man unfortunate. You may not have to work for a living, but you do have to work for a better character, and a good character has his living made for him. A pretty hard road to hoe if out of the God-given material of his own self he carves and chisels a character that shall stand the test of both time and eternity."

"Great wealth leads many young men into fast life, and fast life is generally the macadamized road downward. Young men, let your ambition rise higher than to be a mere pet of society. Life is a battle, a real stern conflict, and a good character is the only armor that will protect you. There isn't any room for the feather-brained dandy, the unimportant appendix to the web of a society."

"The young men who attain ideal manhood today must pass through infinite trials to do so. They must make no compromise."

WILL SOON WORK VACANT LOT FARM Association Wants \$10,000 to Carry on Cultivation on Larger Scale

Last Year 800 Families Conducted Gardens on Capital About \$6000

Work will soon be started on the little farms conducted in various parts of the city under the auspices of the Urban League Association. 80 popular vacant lots have been secured. Applications have been received for gardens by James H. Dix, superintendent, who offices in the Land Title Building.

So far there has been enough land secured this year, in addition to that which the association has held since last year to bring the amount up to about 200 acres, and the superintendent expects to secure more land this week. To occupy this land so that the unemployed can provide their families with food during this year, the association should have \$10,000 at its command. It will cost about \$5 to start each of these gardens and from each of these small beginnings the yield will be at least \$50, and for that \$150.

Work for Unemployed. But, aside from supplying employment to the unemployed, the gardens will also provide for the unemployed women and children interested. It teaches them how to make large use of opportunities, how to become farmers. The association has educated not a few men in gardening, who, after their year's experience, have found employment in various ways. It serves the triple purpose of employing the idle, of supplying food, and of educating men, women and children in the art of living.

All contributions should be sent to treasurer, Jonathan M. Steere, Girard Trust Company, Broad and Chestnut streets.

Next year the association assigned teams to eight hundred families, from which they produced food for the summer and winter upon a contribution less than \$6000.

HOSPITAL DENIES REPORT Mrs. Temple Did Not Leave Presbyterian Institution at Midnight

That Mrs. Temple, a prominent city woman, mysteriously left the Presbyterian Hospital, where she was being treated, during the day they closed at the dead of night, closed, unknown to the doctors, has been denied by the hospital authorities.

Meach, head nurse, said yesterday that she and she were never in a private party to the hospital had no authority over her. Her own physician treated her. It also deny that one of the hospital nurses had been seen in a private party to the hospital had no authority over her. Her own physician treated her. It also deny that one of the hospital nurses had been seen in a private party to the hospital had no authority over her.

LOST GOODS WORTH \$20,000 IN HOTEL

Employees of Bellevue-Stratford to Receive 2543 Unclaimed Articles

Range From Collar Buttons to Trunk—One Diamond Brooch Worth \$2000 in List

As a reward for their honesty, more than a hundred employees of the Bellevue-Stratford will this week receive, like Christmas presents from a belated Santa Claus, 2543 unclaimed articles, found by them last year in different parts of the hotel.

In value the unclaimed goods, which range in size from an insignificant paper of hairpins to a poster-boarded trunk, and in worth from a dime to \$2000, is approximated by the hotel management as close to \$20,000. Ever since the hotel was opened the unclaimed articles have reverted to the employees, but the collection of this year, it is stated, is the largest and most valuable.

The most valuable articles found during the year was a diamond brooch. It has been valued by jewelers at \$2000. In one of the bedrooms it was found by a maid. Because of its value the management thought that it would be claimed the next day. But the owner did not appear to identify it. In vain was the maid advertised in a half dozen cities and the occupants of the rooms traced by the hotel detectives. All the persons who had the room disclaimed knowledge of the jewelry.

List of Articles. The majority of the articles unclaimed follows: 58 fountain pens, 843 penholders, 25 breastpins of every description, 50 thimbles of all metals, 143 hat pins with various designed heads, 23 brooches, in gold, silver, pearls and diamonds, including the one valued at \$2000; 14 gold and silver watches, 1 silver cross inlaid with rhinestones, 23 mileage books, 52 medicine spoons, in gold, silver and platinum; 2 pearl spoons, about 100 match boxes of every description, 801 stick pins ranging in value from 50 cents to \$20; about 200 pocket knives, 6 bracelets of gold, silver and platinum, set with various stones; 14 bar pins of all kinds, 52 belt buckles, 70 rings, 100 pairs of eye glasses, 14 dozen pencils, six of them are valuable; more than 500 collar buttons, only a score of them considered to be valuable; 113 pair of earrings, 52 hairpins, 100 pairs of imitation pearls, 3 pairs of diamond earrings, 8 silver penholders and 58 pipes and cigarette holders.

Only one of the above articles, it is stated, will be given to the employees, with the possible exception of the \$2000 diamond brooch. Another attempt will be made to reach its owner, although it has been lying unclaimed at the hotel for more than a year.

The distribution will occupy three days. By the system employed by the management it is possible for any employee not to receive the articles found by them. Each thing found is immediately tagged with the name of the finder, also attached to it. Then, in the house detectives and the managers search for the owners, the articles await the distribution day.

RACE TO FINISH UPPER END OF MARKET ST. SUBWAY

Philadelphia Rapid Transit Company and a number of prominent engineers will be in the city.

Soon to Lay Tracks. The concrete work has practically been completed from Front to Eighth street and it is expected that the workmen will commence to lay the tracks in this section tomorrow. Some of the concrete work has also been done in the portion from Eighth to Eleventh street, but this is in an incomplete state.

It is upon the stretch from Eleventh street to the completed tunnel at East Penn Square that the contractors are expending the most energy and it is here that the greatest number of workmen are busily employed at the task of excavating.

Looking east from City Hall, one can see little but the huge cranes, whose long arms extend high in the air and which night and day are ceaselessly lifting the big iron shovels of dirt from the hole where the tunnel is being dug. Two of these huge shovels will hold enough dirt to fill a good-sized wagon.

It was about the middle of January that it became apparent that, owing to the many unexpected difficulties with which the contractors had been confronted, the eastern end of the subway would not be completed until the latter part of this year. It was then, as a result of a suggestion from the contractors, that the Philadelphia Rapid Transit Company should contract for the completion of the work, the money being in a graduated scale, according to the time when the contract would be finished. The plan was to have the contractors to hand the subway over to the Transit Company between the middle of July and August 1.

The work on the Front street elevated extension is being pushed rapidly, and within several weeks this section of the work will have been completed.

APPRECIATE PENROSE Pittsburgh Mail Carriers Pass Resolutions Indorsing Him

Special to The Inquirer. PITTSBURGH, March 8.—Pittsburgh mail carriers all over the city are members of the National Letter Carriers' Association, today passed without a dissenting voice these resolutions indorsing Theodore Penrose.

"Whereas, the Hon. Boies Penrose, senator United States Senator of Pennsylvania, played an important part in getting an increase of the postal rates for the carriers at the last session of Congress. Therefore, we commend the action of Senator Penrose in the present session of Congress in an endeavor to improve the condition of the postal carriers. Therefore, we do hereby resolve, that we, the members of the Pittsburgh Mail Carriers' Association, do hereby indorse the resolutions passed by the National Letter Carriers' Association, and we will support him in our behalf and render him a united vote."
