

BUGBEE DEMANDS FIVE-CENT FARE

Candidate for Gubernatorial Nomination Favors One-Cent Mileage Rate

Raps Gov. Runyon for Attitude Toward Utility Board and Promise to Voters

In a whirlwind tour of Camden county in the interest of his candidacy for the Republican nomination for Governor, State Comptroller Newton A. K. Bugbee came out flat-footed for a five-cent trolley fare in Camden and took a fling at two of his opponents for their attitude on the zone fare question. In addition to declaring for a five-cent fare in Camden, Bugbee advocated a charge of one cent a mile in the outlying districts. He spoke at a dozen places in the county during the day and last night addressed meetings at the Sixth, Eighth and Ninth ward Republican Clubs, later visiting the war gardens' exposition at the present Regent Armory.

"I have already expressed my view on the trolley question and suggested a remedy which is practical and which meets with the approval of all fair-minded persons," said Mr. Bugbee at Camden last night. "I am in no slight way responsible, officially or otherwise, for the present trolley situation in the State. I did not appoint the Board of Public Utility Commissioners. I did not vote to increase the number of commissioners, neither did I vote for their confirmation, as did one of my opponents. I am not Acting Governor and when a man who is, tries to shift to my shoulders responsibility for a situation that comes within the performance of his duty, he falls to show proper appreciation of the responsibilities of his office.

"Commissioner Raymond, of Newark, a gubernatorial aspirant is quoted in a speech Thursday night in his own city, as intimating and stating, first, that the State Militia was ordered to protect the cars of the Public Service Railway in Camden; second, that it was at the command of the Adjutant General of the State that the militia was to be assembled.

"If Mr. Raymond does not know that the Adjutant General of the State cannot order the militia without the command of the Governor, who is commander-in-chief, he shows lack of knowledge of State affairs that is amazing in a gubernatorial candidate. He does not know the true nature of the powers of the Adjutant General, he has deliberately and willfully misrepresented to the people the facts under a condition which could not be true.

"Commissioner Raymond must have known, or ought to have known, that the Adjutant General had no authority to order the State Militia to protect the Public Service cars, or otherwise. At the hour I am making this statement, the State Militia is on duty in Camden for police purposes were ordered out by Mayor Ellis, of the City of Camden, and by the Mayor of Camden, and are there under the authority and by the order of the Mayor of Camden alone. Commissioner Raymond knows, and he knows that the Adjutant General has given no order for the calling out of the State Militia or even for the mobilization of that organization.

"Governor Runyon, another of my opponents, frankly stated in Mount Holly, on Thursday night, that he could not promise relief that he could not bring about immediately, but that the decision of the Board of Public Utilities and that it would be dishonest to threaten the renewal of the present Utility Board members, but added that the people could be sure that not a single one of the five members of the board would be reappointed by him if elected Governor.

"I have the highest respect for Governor Runyon, but I must say to him that this is a disingenuous statement. It misleads the people. It does not tell the whole truth. The term of only one of the present members of the Board of Public Utilities expires during the term of the next Governor. Of course, he will not reappoint him, because he will have only one appointment to make and that is to fill the vacancy which will be created by the expiration of the term of Commissioner Slocum.

"If Governor Runyon had explained this to the people of New Jersey, he would, undoubtedly, have understood that this promise not to reappoint the present board whose terms extend over his term meant in a purely tickle-wick sense.

"Governor Runyon further said that he was persuaded to vote in favor of increasing the Board of Public Utility Commissioners from three to five members, but that when these extra jobs were created it became apparent to him that the Board of Public Utility was to provide berths for the reward of two more politicians. Governor Runyon has been in the House of Assembly and Senate. He has had some experience. If he is so disingenuous that he can be persuaded to do a thing which he is convinced is wrong, he will certainly be at the mercy of selfish and scheming interests during a three-year tenure in the gubernatorial office, should he be elected."
