This is a Great Store  
For Young Men's Suits

It was not so many years ago that young men either had to go to a merchant tailor or else wear ready-made suits that looked as though they came out of a hopper. We were one of the first in this country to specialize in the making of ready-to-wear garments for young men, and to make it possible for them to have clothing with distinctive individuality to it and style designed solely for them.

Suits Range in Price from \$8.50 to \$18— and \$15 there are Marvellous Values

Most of our suits are double-breasted in lines, checked and wended combinations, and they have all the little accessories which when united make perfection. They fit the young men as though made for them.

The W. W. W. \$5 Suits for Boys

These suits, considered the latest boys' suits on the market today, are well made and very attractive. They are sold in lots of 12 for \$5.
